AUTHORSHIP & PUBLICATION

**Written by: Vikrant Rathore**

With contributions from: Lauren Zhao, Vicky Ni, Jennifer Yuan, Ronak Rathore, Kanak Rathore, Emily Yue Xu

Published with Guidedog in seven website and PDF editions: English, Simplified Chinese, Hindi, Japanese, Korean, German and Spanish.

Research checked 4 November 2026. 133 organizations and 53 funding routes across all 16 districts. Includes 40 undergraduate institutions and registers of 29 diploma colleges and 12 adult institutions. Coverage is a researched selection. A valid policy does not mean applications are open.

Cover: original generated artwork in a Chinese ink-and-color style, with Shanghai at dawn, white magnolias and a connected-pearl motif. An artistic composition, not a surveyed geographic view. Sources and research limits appear at the end.

CC BY-SA 4.0 Applies to original Atlas material. Third-party material retains its respective rights and licenses.

CITY & IDEAS

# A city of connected possibilities

Shanghai becomes easier to navigate when we follow a project from research to prototype, from prototype to a first customer, and from that customer to a repeatable business. The useful unit is a working relationship: a laboratory, a district service team, an incubation operator, a buyer or an investment manager.

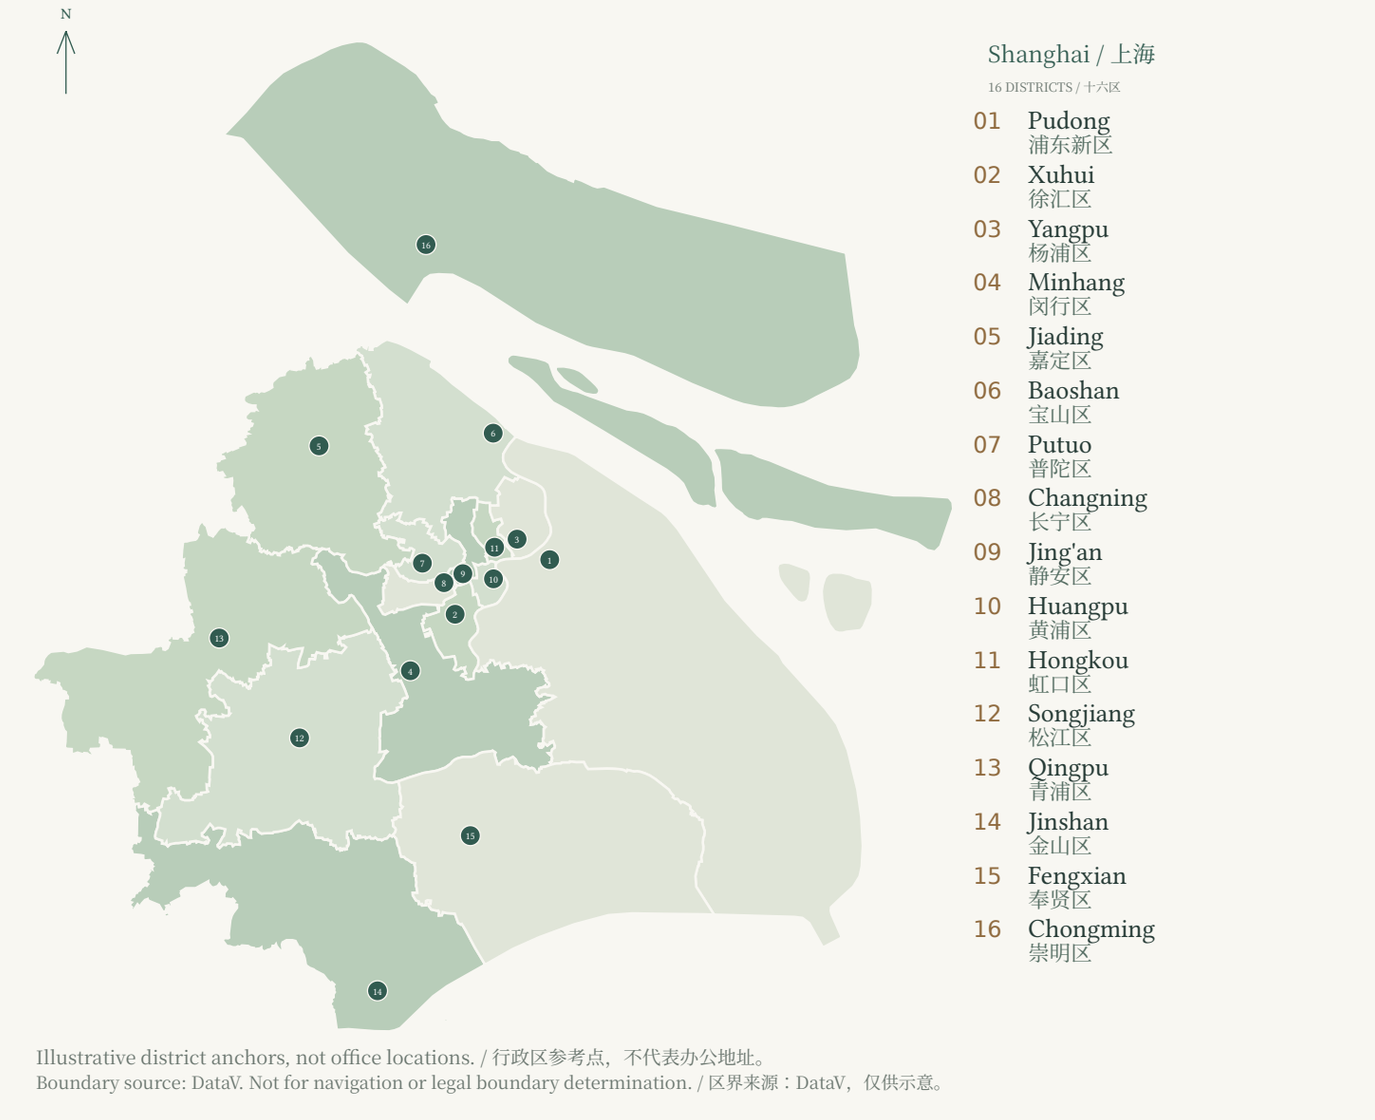

**Fig. 2** Sixteen districts, connected by people, research and industry.

## A practical atlas, with a stated boundary

This edition covers all 16 administrative districts and the Ministry of Education's June 2026 Shanghai register of 69 ordinary higher-education institutions, including 40 undergraduate institutions and 29 diploma colleges. A separate

appendix includes the 12 adult higher-education institutions. CEIBS and military institutions need separate treatment and are not silently added to the ordinary-university count.

The program directory is a researched selection, not a claim that every organization or funding call in Shanghai has been found. District policies, university entry routes, technology parks, public platforms, private operators and corporate initiatives change independently. Unknown details remain visible.

Our research date is 4 November 2026. A policy still within its stated validity period is not necessarily accepting applications. A launch announcement proves that an initiative was announced; it does not prove that a new cohort is open.

## Three geographies, many choices

The central city offers proximity to research, professional services and customers. Xuhui and Yangpu are useful starting points for model and university connections. Pudong combines Zhangjiang research, chip and biomedical activity with a distinct Lin-gang development area. These are starting hypotheses; the right operator and customer matter more than an address.

Minhang and Jiading help connect engineering research to industrial work. Baoshan, Songjiang, Jinshan and Fengxian offer different manufacturing contexts. Qingpu links regional collaboration and the Xicen research environment. Chongming is a distinct setting for ecological, agricultural and marine questions. The district chapters explain the evidence behind each route.

Functional areas are not extra districts. Zhangjiang, Caohejing, Hongqiao, G60 and Lin-gang can cross administrative or operating boundaries. We confirm registered address, actual operations, project location and the receiving authority before assuming a policy applies.

Recent 2025-2026 municipal and district upgrades have sharpened these spatial roles: Pudong unveiled the 2-square-kilometer Zhangjiang AI Innovation Town alongside its compute, model and corpus vouchers; Shanghai expanded its high-quality incubator network to 18 flagship operators; Putuo structured its “One Axis, One Park, One Center” corridor linking Wuning Science Park, China-Israel Innovation Hub and Shanghai Tsinghua International Innovation Center; and Songjiang launched the University Town Sci-Tech Source fund to connect seven campus research bases with industrial transformation.

## The magnolia and the pearl

Shanghai’s official flower is the white magnolia, designated in 1986. Pearl white is the principal color of this atlas. Ink charcoal, mist jade and champagne gold form an editorial palette rather than an official municipal color standard. The cover is an original generated Chinese ink-style illustration, not a documentary photograph or a geographically exact skyline.

This book and interactive atlas are written by Vikrant Rathore with contributions from Lauren Zhao, Vicky Ni, Jennifer Yuan, Ronak Rathore, Kanak Rathore and Emily Yue Xu. The publication is produced natively using Guidedog in both HTML and PDF editions in seven languages, sharing one verified dataset across the interactive web atlas and the illustrated print-ready books.

Evidence S140. Shanghai municipal flower and overview.

Evidence S141. Shanghai expands list of high-quality incubators.

02

CITY & IDEAS

# Intelligence in software

For a software AI team, the scarce resource is often a repeatable customer problem, a reliable evaluation set and a lawful route to useful data. A model community helps when it supplies a concrete resource or a credible introduction.

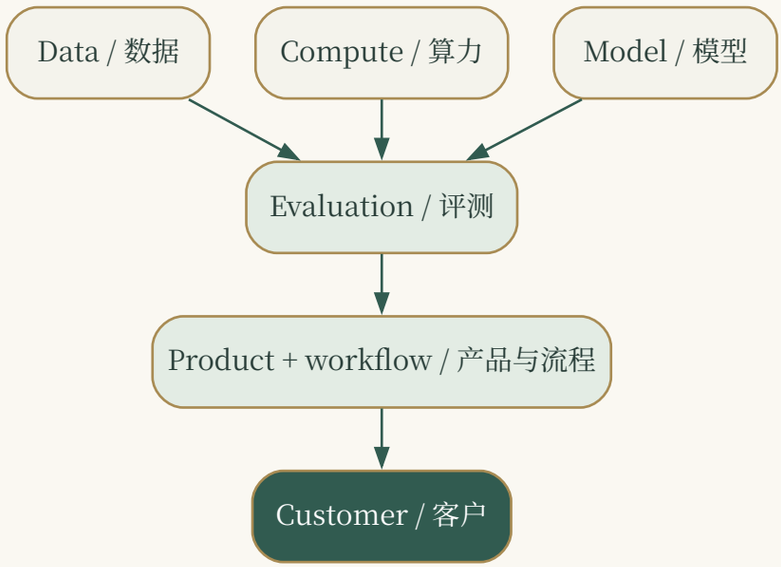

**Fig. 3** An AI product connects models to a customer workflow.

## Choose an entry point

For model engineering and developer connections, begin with Model Speed Space, Zhangjiang Model Community, Shanghai AI Laboratory resources or a relevant university group. For enterprise deployment, compare an operator's actual buyer relationships with the industry requirements. For an independent founder, check the current Yangpu OPC community policy and Changning's published carriers.

We treat foundation models, domain models, agents, multimodal systems, industrial software, evaluation, AI security and scientific software as different businesses. An accelerator that can introduce a manufacturer may not supply a regulated financial dataset or an inference contract.

In central and western districts, Jing'an's Shibei Hi-Tech Park and Shutong Valley focus on big-data, blockchain and enterprise AI compliance; Huangpu pairs its five-year fintech clustering policy with the Entrepreneurship Companion mentor network; and Songjiang's 2026 Data Elements Special Fund supports corpus governance and AI data-space applications.

## Build the smallest credible pilot

Prepare one task, a baseline, a held-out evaluation set and a target metric. State cost per completed task, latency, error handling and human review. Name the data owner, deployment environment and accountable buyer. A pilot needs an owner, a budget, acceptance criteria and a path to a production contract.

Budget training, fine-tuning, inference, retrieval, storage, networking, annotation and evaluation separately. A compute reimbursement may exclude storage or networking. A model or corpus voucher may cover only an approved supplier and a specified historical cost period. Retain usage logs, invoices, contracts and payment records from the beginning.

## Before public deployment

Define whether the service is an internal tool, a business-facing deployment or a public-facing generative service. Ask the relevant authority and a qualified adviser which model registration, algorithm filing, content labelling, data, sector and network requirements apply. Requirements attach to the actual service, not to an AI label on a pitch deck. This atlas supplies routing questions rather than an exhaustive legal procedure.

Evidence S114. 上海市经济信息化委关于组织 2026 年度上海市“模塑申城”工程相关补贴申报工作的通知.

03

CITY & IDEAS

# Intelligence in the physical world

Hardware joins algorithms to materials, manufacturing tolerances, reliability and service. A beautiful prototype is the beginning of a supply chain. We follow chips, sensors, robots and autonomous systems through the facilities they need.

**Fig. 4** Engineering gates from research to repeatable production.

## Chips and sensing

For an AI chip project, prepare the architecture, workload, process choice, toolchain, IP dependencies and software support plan. Separate EDA access, licensed IP, multi-project wafer participation, full mask sets, packaging, testing and characterization. A shared lab or incubator does not automatically pay for a tape-out.

Zhangjiang IC Design Industrial Park and the IC promotion center are initial service routes. In Jiading, the documented SITRI and InnoSpring relationship is relevant to beyond-Moore devices, sensors and pilot production. We ask for equipment, process capability, queue time, sample ownership and a written quotation.

Shanghai Integrated Circuit R&D Center (ICRD) in Zhangjiang supports shared process development and device verification, while Xihe Optic Valley in Jiading incubates scientist-founded optoelectronics, laser and photonic sensing teams. In Fengxian, the Oriental Beauty Valley Life Messenger Gene Drug Base opened in April 2025 to link AI-assisted molecular design with shared wet labs and pilot manufacturing.

## Robots and embodied AI

Separate the robot foundation model, perception, planning, control and safety architecture from motors, transmissions, tactile sensing, batteries and the mechanical platform. Test the complete system against a named use case. Demonstrations should state payload, cycle time, failure conditions, human intervention and maintenance cost.

Compare Minhang's research-to-manufacturing connection, Baoshan's robot industry, Wuning's testing services and Zhangjiang's robotics ecosystem. Corporate programs can provide a deployment conversation. They do not replace production qualification, applicable certification or a customer acceptance plan.

## Other physical frontiers

For drones, begin with a real operating scenario and ask Jinshan's UAV route about test services and applicable operating permissions. For brain-computer interfaces and medical devices, separate exploratory research from regulated product development. For AI-enabled biology, confirm biosafety, instrument availability, sample handling and clinical access before renting a lab.

Our hardware application pack adds a bill of materials, costed engineering milestones, manufacturing partner plan, test fixtures, reliability plan and a working demonstration. We identify what the incubator can actually supply and what the team must buy elsewhere.

Evidence S006. 市科委、嘉定区联合调研高质量孵化器建设工作.

04

PEOPLE & PLACES

# Sixteen districts, sixteen entry routes

Every district has a chapter. We begin with its documented specialization and receiving authority, then follow the local organizations and district funding routes. An official portal remains the contact route when no current named officer or direct intake form is established.

- **[01]** Pudong (浦东新区) — **Foundation models, chips, biomedicine and advanced manufacturing**. Receiving authority: Pudong Science, Technology and Economy Commission. Published phone: +86 21 68811090. Policy & carrier note: 2026 AI application call closed on 31 August 2026. The published route covers qualifying 2025 model and agent expenditure; duplicate public funding is excluded. (42 local organizations, 7 district funding routes).
- **[02]** Xuhui (徐汇区) — **Foundation models, embodied AI and research commercialization**. Receiving authority: Xuhui industry development authority. Policy & carrier note: The embodied AI policy identifies robot models, algorithms, data and operating systems. Its evaluated support ceilings are not automatic startup awards. (9 local organizations, 2 district funding routes).
- **[03]** Yangpu (杨浦区) — **University spinouts, brain-inspired AI and independent AI founders**. Receiving authority: Yangpu science and technology authority. Policy & carrier note: Brain-inspired AI policy names Changyang Campus and Bay Valley. A separate May 2026 OPC policy supports communities around Fuxing Island; an action plan does not itself constitute a cash award. (10 local organizations, 2 district funding routes).
- **[04]** Minhang (闵行区) — **University commercialization, robotics, BCI and engineering**. Receiving authority: Minhang science and technology authority. Policy & carrier note: The enterprise innovation policy runs from 1 September 2025 to 31 August 2030. New conversion enterprises may qualify for up to RMB 500,000 annually, capped at RMB 1.5 million over three years and 50% of eligible investment. (6 local organizations, 2 district funding routes).
- **[05]** Jiading (嘉定区) — **Automotive intelligence, sensors, MEMS and pilot production**. Receiving authority: Jiading science and technology authority. Policy & carrier note: The municipal science commission documents the joint role of SITRI and InnoSpring in connecting research, pilot production and incubation. The 2026 district service program provides policy interpretation and project coordination. (4 local organizations, 1 district funding routes).
- **[06]** Baoshan (宝山区) — **Robotics, advanced equipment and industrial deployment**. Receiving authority: Baoshan industry and science authorities. Policy & carrier note: The district is developing a robotics and advanced equipment cluster. Separate industrial-park admission and district support reviews are needed; a factory demonstration is not a startup funding call. (2 local organizations, 1 district funding routes).
- **[07]** Putuo (普陀区) — **Industrial testing, intelligent software and international innovation**. Receiving authority: Putuo science and technology authority. Policy & carrier note: Wuning Science Park connects industrial research, testing and technology transfer. The district incubator register also lists the China-Israel Innovation Hub; tenancy and investment require separate terms. (4 local organizations, 3 district funding routes).

- **[08]** Changning (长宁区) — **Digital business, AI applications and cross-border services**. Receiving authority: Changning science and technology authority. Policy & carrier note: The August 2026 district account identifies Digital Silicon Alley, Hongqiao Zhiyu, East Hongqiao International Youth Innovation Center and MAKE021 as parts of its incubation landscape. Confirm the correct operator before submitting. (2 local organizations, 2 district funding routes).
- **[09]** Jing'an (静安区) — **Enterprise AI, data services and digital commerce**. Receiving authority: Jing'an science and economy authority. Policy & carrier note: The 2026-2028 AI application demonstration plan focuses on industry integration and talent. Its stated objectives must be distinguished from implementing rules and currently accepting applications. (3 local organizations, 1 district funding routes).
- **[10]** Huangpu (黄浦区) — **Fintech, clinical services, design and consumer applications**. Receiving authority: Huangpu science and entrepreneurship services. Policy & carrier note: The 2025-2026 Zhangjiang Huangpu Park plan emphasizes fintech and clinical research services. Huangpu ChuangKa is a separate youth entrepreneurship support route; check eligibility and current workstation availability. (2 local organizations, 1 district funding routes).
- **[11]** Hongkou (虹口区) — **Shipping technology, green finance and intelligent inspection**. Receiving authority: Hongkou science and economy authority. Policy & carrier note: The 2025-2026 Hongkou Park plan assigns a coordinated incubation and investment role to the district state-owned Beikechuang group. Ask for the operating carrier and current application notice, rather than relying on older subsidy summaries. (4 local organizations, 1 district funding routes).
- **[12]** Songjiang (松江区) — **G60 innovation, industrial software and advanced manufacturing**. Receiving authority: Songjiang G60 innovation services. Policy & carrier note: The G60 Sci-Tech Innovation Valley publishes innovation and resource-matching initiatives. We distinguish the nine-city corridor from Shanghai district eligibility: a partner elsewhere in the corridor does not establish Songjiang qualification. (8 local organizations, 2 district funding routes).
- **[13]** Qingpu (青浦区) — **Huawei-linked research, digital systems and regional collaboration**. Receiving authority: Qingpu science and technology authority. Policy & carrier note: Xicen links the Lianqiu Lake research center with an emerging innovation district. The official 2025 reply discusses early investment and technology transfer, but proposed funds are not treated here as open startup applications. (3 local organizations, 2 district funding routes).
- **[14]** Jinshan (金山区) — **Drones, new materials and low-altitude systems**. Receiving authority: Jinshan science and technology authority. Policy & carrier note: The 2025-2026 park plan names Jinshan New Materials Incubator, East China UAV Base and Bay Area incubation carriers. It connects testing and industrialization, subject to park admission and the applicable aviation permissions. (3 local organizations, 1 district funding routes).
- **[15]** Fengxian (奉贤区) — **Robotics, beauty and health technology, advanced manufacturing**. Receiving authority: Fengxian economic commission. Policy & carrier note: The robot industry measures cover qualifying registered companies working on intelligent robots. Oriental Beauty Valley provides a separate beauty and health industry context. Match the project to the correct policy owner and application batch. (4 local organizations, 3 district funding routes).
- **[16]** Chongming (崇明区) — **Ecological technology, smart agriculture and marine systems**. Receiving authority: Chongming science and technology authority. Published phone: +86 21 69695910. Policy & carrier note: The 2025-2026 Chongming Park plan supplies current strategic context. The separate 2024 science innovation subsidy measures expired on 31 December 2025; we do not present those ceilings as current entitlements. (2 local organizations, 2 district funding routes).

# Pudong

Foundation models, chips, biomedicine and advanced manufacturing

2026 AI application call closed on 31 August 2026. The published route covers qualifying 2025 model and agent expenditure; duplicate public funding is excluded.

Evidence S099. 关于开展 2026 年度浦东新区促进人工智能产业高质量发展专项（大模型等 AI 新技术应用项目）申报工作的通知_政策性文件.

### Who receives the inquiry

Pudong Science, Technology and Economy Commission

Official district website

Published contact: +86 21 68811090.

### Before applying

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

Ask which current notice governs the project, whether registration and actual operations must both be in the district, which expenditure period is eligible, and whether previous municipal or district awards exclude a claim. Obtain the answer before moving a company or incurring costs.

### Local organizations in this atlas

- Zhangjiang Model Community (张江模力社区 · Incubator · Software AI, Hardware AI) — A Zhangjiang AI community identified in the municipal AI implementation plan. It links model developers and industry users. Ask the operator for the specific model, data and compute package and its reimbursement rules. [Status: Published entity; intake to confirm]
- Zhangjiang Hi-Tech 895 Incubator (张江高科 895 孵化器 · Incubator · Hardware AI, Chips) — A deep-technology incubator with chip-testing and industrialization context in Zhangjiang. Incubation and the associated angel investment pathway must be reviewed as different agreements. [Status: Published entity; intake to confirm]
- ATLATL Zhangjiang Center (ATLATL 飞镖张江中心 · Incubator · Health, AI for Science) — A shared research and incubation environment in Zhangjiang Pharma Valley. Laboratory services and its innovation seed-fund relationships are relevant to AI-enabled biology; access and investment are negotiated separately. [Status: Published entity; intake to confirm]
- Nest.Bio Shanghai Innovation Platform (巢生上海创新孵化平台 · Incubator · Health, AI for Science) — Recognized in the December 2025 high-quality incubation expansion, with synthetic biology and cell and gene therapy interests. Confirm current Shanghai facilities, admission and laboratory pricing with the operator. [Status: Published entity; intake to confirm]

- XNode (创极无限 XNode · Accelerator · Software AI, Industry) — A cross-border innovation operator supporting market entry, corporate partnerships and pilots. Its Shanghai office is a useful intake route for international teams. Scope, fees, deliverables and investment should be stated separately. [Status: Published entity; intake to confirm]
- Plug and Play China, Shanghai (璞跃中国上海中心 · Accelerator · Software AI, Hardware AI, Mobility) — The operator lists its Yangtze River Delta innovation center at Zhangjiang Guochuang Center. Corporate innovation, office space and venture investment have different admission and commercial terms. [Status: Published entity; intake to confirm]
- PwC x Zhangjiang Healthcare Accelerator (普华永道张江数字医疗加速营 · Accelerator · Health, Software AI) — PwC describes a digital healthcare acceleration initiative supported by Pudong and Zhangjiang. The evidence establishes the initiative; a currently accepting cohort and its commercial terms require confirmation. [Status: Published entity; intake to confirm]
- Lin-gang Science and Innovation City (临港科创城 · Technology park · Hardware AI, Chips, Software AI) — The January 2026 plan identifies Dishui Lake AI and IC innovation ports and staged development targets. Lin-gang is a functional area, not Shanghai's seventeenth district. Establish the administering boundary before seeking incentives. [Status: Published entity; intake to confirm]
- Shanghai IC Design Industrial Park (上海集成电路设计产业园 · Technology park · Chips, Hardware AI) — A Zhangjiang chip design ecosystem connecting design and industrial services. A strong starting point for AI chip teams, with specific EDA, IP, tape-out, packaging and testing access negotiated with providers. [Status: Published entity; intake to confirm]
- Shanghai Integrated Circuit Technology and Industry Promotion Center (上海集成电路技术与产业促进中心 · Research platform · Chips, Hardware AI) — An IC technical-service entry point that also publishes innovation-voucher guidance. Eligible voucher-covered services are selected on the official platform; a voucher is not a general equipment purchase budget. [Status: Published entity; intake to confirm]
- Tongji Autonomous Intelligent Unmanned Systems Center (同济大学上海自主智能无人系统科学中心 · Research platform · Hardware AI, Mobility) — A research collaboration route for autonomous systems. The published office contact is in Zhangjiang. A technical proposal should identify the platform, experiment, data and proposed industrial partner. [Status: Published entity; intake to confirm]
- Roche Accelerator (罗氏加速器 · Corporate program · Health, AI for Science) — Roche describes its Shanghai innovation accelerator for the China ecosystem. Relevant to healthcare and AI-enabled discovery teams. Scientific fit, space, collaboration, funding and IP terms are distinct questions. [Status: Published entity; intake to confirm]
- SAP.iO Foundry Shanghai (SAP.iO 上海加速器 · Corporate program · Software AI, Industry) — The 2021 launch described an equity-free intelligent-manufacturing accelerator. It is included as a historical corporate route; the source does not establish a 2026 Shanghai intake. [Status: Historical / confirm continuation]
- ABB open innovation / Shanghai robotics (ABB 开放创新／上海机器人生态 · Corporate program · Hardware AI, Robotics) — ABB publishes open-innovation and startup collaboration routes. Its May 2025 Shanghai AI event is evidence of ecosystem activity, not an always-open startup accelerator cohort. Propose a measurable robotics use case. [Status: Published entity; intake to confirm]
- DroidUp Ecosystem Accelerator (卓益得生态加速器 · Corporate program · Hardware AI, Robotics) — The December 2025 Zhangjiang Robot Valley account reports the accelerator launch. We include it as a robotics industry route and require direct confirmation of intake, pilot access, investment and hardware resources. [Status: Published entity; intake to confirm]
- Shanghai AI Public Technology Service Platform (上海人工智能公共技术服务平台 · Corporate program · Software AI) — The PaddlePaddle-linked platform publishes AI training and ecosystem resources. Explore its technical services and developer events; confirm whether a specific training or compute offer carries fees. [Status: Published entity; intake to confirm]

- Pudong AI Seed Fund (浦东人工智能种子基金 · Investor · Software AI, Hardware AI) — Announced in July 2025 at a target size of RMB 2 billion and an initial RMB 500 million tranche. The figure is fund scale, not a per-startup cheque. Seek the manager through Pudong's official ecosystem route. [Status: Published entity; intake to confirm]
- Shanghai Embodied AI Fund (上海具身智能基金 · Investor · Hardware AI, Robotics, Sensors) — A state-backed embodied-intelligence investment route announced in April 2025, including core components and edge chips. Confirm the current manager and investment mandate; no uniform cheque size or ownership percentage is established here. [Status: Published entity; intake to confirm]
- Qiming Venture Partners (启明创投 · Investor · Software AI, Health, Hardware AI) — A venture-capital contact route with a published Shanghai office. Send a concise investment case and confirm sector and stage fit. The general contact inbox is not a guarantee of an investment review. [Status: Published entity; intake to confirm]
- Zhangjiang AI Innovation Town (张江人工智能创新小镇 · Technology park · Software AI, Hardware AI, AI for Science) — A 2-square-kilometer core zone in Zhangjiang Science City with 700,000 sqm of industrial space, spatiotemporal digital infrastructure and linked compute, model and corpus vouchers. Confirm whether the company's registered and operating address falls inside the designated town boundary. [Status: Published entity; intake to confirm]
- Shanghai Integrated Circuit R&D Center (上海集成电路研发中心 · Research platform · Chips, Hardware AI) — A shared integrated-circuit research and engineering platform in Zhangjiang supporting process development, device verification and IP testing. Request a technical scoping review and written quotation for wafer or testing runs. [Status: Published entity; intake to confirm]
- JLABS Shanghai (强生创新 JLABS 上海 · Corporate program · Health, AI for Science) — An operator-listed life-sciences incubation site in Zhangjiang with an application route. For AI-enabled healthcare, clarify scientific fit, laboratory requirements, residency pricing, IP and any separate challenge or investment terms. [Status: Published entity; intake to confirm]
- Bayer Co.Lab Shanghai (拜耳 Co.Lab 上海 · Corporate program · Health, AI for Science) — Bayer's September 2024 Shanghai site launch describes shared laboratories and office space for early biotech teams in SH-INNO Park. Confirm available residency and collaboration terms; the historic capacity is not a current vacancy count. [Status: Published entity; intake to confirm]
- National-Local Humanoid Robot Innovation Center / pilot platform (国家地方共建人形机器人创新中心／中试服务平台 · Research platform · Hardware AI, Robotics, Sensors) — The center links robot data collection, training and physical validation with a pilot-production platform operated with Shanghai Electric. The July 2026 announcement describes industry-facing trial production, testing and scenario validation. Ask for compatibility, queue, sample ownership, safety responsibilities and a written service quotation. [Status: Published entity; intake to confirm]
- Lin-gang Zero Cube OPC community (临港零界魔方 OPC 社区 · Incubator · Software AI, Hardware AI, Industry) — A Lin-gang Group community for solo founders and small teams, with startup and living-service teams and AI-Store resource access. The August 2026 operator report describes three rent-free office years followed by two half-price years for qualifying projects. Housing, loans, vouchers and admission have separate conditions; confirm the current tenancy contract. [Status: Published entity; intake to confirm]
- Waigaoqiao Fudan Science Park Biomedical Innovation Center (外高桥复旦科技园生物医药创新中心 · Incubator · Health, AI for Science) — Fudan Science Park operates this biomedical incubation and commercialization center at 8 Jiafeng Road in Waigaoqiao. AI-for-drug-discovery teams can explore laboratory and translational partnerships here; this is an editorial fit, not a verified dedicated AI cohort. Foreign businesses should ask whether a locally incorporated foreign-invested entity is required, then confirm admission, IP, laboratory access and fees. No standard grant or foreign-founder entitlement is established. [Status: Published entity; intake to confirm]

- Waigaoqiao bonded R&D and AI-health innovation services (外高桥保税研发与 AI 健康创新服务 · Research platform · AI for Science, Health, Hardware AI, Robotics) — The 2025-2026 Free Trade Bonded Park plan explicitly supports AI drug discovery, cross-border medical-device R&D, advanced-equipment innovation and foreign-funded R&D institutions. Foreign AI and hardware companies can use the authority route to explore local research, testing and commercialization arrangements. Confirm the specific operator, legal entity, customs boundary, sector permissions and data handling before incurring costs. This is a service and collaboration route; the plan is not a cash-award offer. [Status: Published entity; intake to confirm]
- Shanghai Maritime University (上海海事大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Shipping, logistics, autonomous maritime systems. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai University of Electric Power (上海电力大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Energy systems, grid intelligence, industrial control. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai University of Medicine and Health Sciences (上海健康医学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Health devices, diagnostics, clinical applications. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai Ocean University (上海海洋大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Marine science, aquaculture, smart agriculture. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai University of Traditional Chinese Medicine (上海中医药大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Healthcare, drug discovery, medical data. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai Customs University (上海海关学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Customs, trade processes, compliance systems. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai Police College (上海公安学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Public-safety education; external project access unverified. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai Lixin University of Accounting and Finance (上海立信会计金融学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Accounting systems, fintech, business analytics. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai DianJi University (上海电机学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Electrical equipment, advanced manufacturing. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]

- Sanda University (上海杉达学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Applied digital business and talent partnerships. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai Polytechnic University (上海第二工业大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Applied engineering, electronics, manufacturing. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai Jian Qiao University (上海建桥学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Applied engineering, digital media, business. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai Xing Wei College (上海兴伟学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Interdisciplinary education and entrepreneurship conversations. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- ShanghaiTech University (上海科技大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Chips, software AI, scientific instruments, biotech. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- NYU Shanghai (上海纽约大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Data science, computation and international research. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]

### Funding routes

- Pudong AI model and agent application support, 2026 (浦东 2026 年大模型等 AI 新技术应用项目 · Reimbursement · No equity) — Support rate and amount subject to applicable implementing rules. Status: Closed. Timing: Closed 31 Aug 2026, 16:00 China Standard Time.
- Pudong AI Seed Fund (浦东人工智能种子基金 · Equity investment · Negotiated equity) — Fund target RMB 2bn; first tranche RMB 500m; individual cheque not established. Status: Fund announced; deal intake to confirm. Timing: Manager-led sourcing and due diligence.
- Zhangjiang AI Town compute, model and corpus support (张江 AI 创新小镇算力券、模型券、语料券 · Reimbursement · No equity) — Up to 100% of approved actual cost, capped at RMB 1m in each category; at most one year. Status: Quarterly scheme published; current intake to confirm. Timing: Quarterly claims; confirm the current batch.
- Lin-gang Zero Cube conditional rent support (临港零界魔方有条件办公租金支持 · In-kind services · No equity stated in offer; verify terms) — Qualifying offices: 3 years rent-free, then 2 years at half rent; separate housing and service terms. Status: Published service; current terms to confirm. Timing: Confirm current community admission and tenancy terms.
- Lin-gang OPC AI-tool service cost support (临港 OPC 人工智能工具服务费用支持 · Reimbursement · No equity for qualifying public support) — Up to 80% of qualifying AI-tool service costs; applicable caps and conditions require the implementing notice. Status: Published policy; implementing intake to confirm. Timing: Confirm current implementing notice and intake.

- Lin-gang OPC open-source AI-tool development reward (临港 OPC 开源 AI 工具开发奖励 · Grant · No equity for qualifying public support) — Annual reward up to RMB 1 million for qualifying AI-tool development and listing on major international open-source platforms. Status: Published policy; implementing intake to confirm. Timing: Confirm current implementing notice and intake.
- Pudong foreign-funded R&D and open-innovation support (浦东外资研发与开放创新支持 · Grant / market access · No equity for qualifying public support) — Conditional R&D-center support under the applicable recognition and funding rules; no universal cash ceiling established. Status: Published policy; implementing intake to confirm. Timing: Policy through 31 December 2027; confirm the implementing call.

Also compare citywide funding

# Xuhui

Foundation models, embodied AI and research commercialization

The embodied AI policy identifies robot models, algorithms, data and operating systems. Its evaluated support ceilings are not automatic startup awards.

Evidence S100. 关于印发《徐汇区关于推动具身智能产业发展的若干意见》的通知.

### Who receives the inquiry

Xuhui industry development authority

Official district website

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

### Before applying

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

Ask which current notice governs the project, whether registration and actual operations must both be in the district, which expenditure period is eligible, and whether previous municipal or district awards exclude a claim. Obtain the answer before moving a company or incurring costs.

### Local organizations in this atlas

- Shanghai Model Speed Space (上海模速空间 · Incubator · Software AI) — A specialist large-model incubation and acceleration community on the West Bund. Its operator lists several zones; admission, workspace, compute support and investment are separate decisions. [Status: Published entity; intake to confirm]
- Shanghai Artificial Intelligence Laboratory (上海人工智能实验室 · Research platform · Software AI, AI for Science) — A research institution for foundational and applied AI. Its published general contact supports initial routing; open-source resources, collaboration and recruitment are separate pathways, not a generic startup grant. [Status: Published entity; intake to confirm]
- Caohejing Development Zone (漕河泾开发区 · Technology park · Software AI, Hardware AI, Industry) — The park operator publishes enterprise and intellectual-property service routes. Confirm the specific sub-park and operating address; the Caohejing name covers multiple development locations. [Status: Published entity; intake to confirm]
- Shanghai Technology Innovation Center (上海市科技创业中心 · Research platform · Software AI, Hardware AI, Industry) — The municipal science-and-technology entrepreneurship service institution coordinating Shanghai's high-quality incubator cultivation system, innovation vouchers, technology SME filings and the Startup in Shanghai portal. [Status: Published entity; intake to confirm]

- Shanghai Innovation Institute / Beiyang AI founder network (上海创智学院／北杨人工智能创业网络 · Incubator · Software AI, Hardware AI, AI for Science) — SII and Caohejing jointly operate the Chuangzhi Future Center for research-led AI founders; Beiyang AI Accelerator supports later market and supply-chain connections. Institute-affiliated incubation is not an unrestricted public admission offer. Ask the operator about affiliation, IP, company formation and current external-team access. [Status: Published entity; intake to confirm]
- Xuhui Qingmiao AI Youth Entrepreneurship Fund (徐汇人工智能青年创业基金（青苗基金） · Investor · Software AI, Hardware AI) — Xuhui established this youth-focused AI fund in September 2025. Its August 2026 entrepreneurship camp connected early AI teams with investment, research and industrial partners. Shanghai Xuhui Capital Investment and Shanghai Xuhui Science and Technology Venture Capital Fund Management co-hosted the camp. Request the receiving manager and current investment terms; camp attendance is not an investment award. [Status: Published entity; intake to confirm]
- East China University of Science and Technology (华东理工大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Materials, chemistry, bioprocessing, AI for Science. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai Normal University (上海师范大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Education, computer science, creative technology. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai Conservatory of Music (上海音乐学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Audio AI, music technology, creative tools. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]

### Funding routes

- Xuhui embodied AI development support (徐汇具身智能产业支持 · Grant · No equity) — Evaluated entity support ceilings: RMB 10m one-off and RMB 20m annual development support. Status: Published policy; implementing intake to confirm. Timing: Confirm applicable implementing notice.
- Xuhui Qingmiao early AI investment route (徐汇青苗基金早期 AI 投资渠道 · Equity investment · Negotiated equity) — Manager-reviewed early-stage investment; no universal cheque or equity percentage verified. Status: Published investment platform; deal review. Timing: Manager-led sourcing and due diligence.

ORGANIZATIONS / RESOURCES / CONTACTS

# Yangpu

University spinouts, brain-inspired AI and independent AI founders

Brain-inspired AI policy names Changyang Campus and Bay Valley. A separate May 2026 OPC policy supports communities around Fuxing Island; an action plan does not itself constitute a cash award.

Evidence S016. 关于印发《杨浦区关于促进类脑智能产业发展的实施方案》的通知.

### Who receives the inquiry

Yangpu science and technology authority

Official district website

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

### Before applying

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

Ask which current notice governs the project, whether registration and actual operations must both be in the district, which expenditure period is eligible, and whether previous municipal or district awards exclude a claim. Obtain the answer before moving a company or incurring costs.

### Local organizations in this atlas

- InnoSpace (创智空间 InnoSpace · Accelerator · Software AI, Industry) — An innovation service organization focused on corporate open innovation and startup incubation and acceleration. Bring a concrete industrial use case; program participation does not imply a corporate purchase order. [Status: Published entity; intake to confirm]
- Changyang Campus (长阳创谷 · Technology park · Software AI, Hardware AI) — The Yangpu brain-inspired intelligence plan identifies Changyang Campus as a southern core, paired with Bay Valley in the north. Suitable for neuromorphic computing and commercial AI collaborations. [Status: Published entity; intake to confirm]
- Fuxing Island maker / OPC communities (复兴岛创客与 OPC 社区 · Incubator · Software AI) — A May 2026 district policy supports AI-enabled independent founders and maker communities. Ask for an approved community operator, the qualifying activity definition, housing conditions and any service or equity agreement. [Status: Published entity; intake to confirm]
- STEFG Angel Fund (上海市大学生科技创业基金会天使基金 · Investor · Software AI, Hardware AI, Industry) — The foundation offers distinct interest-free loan and temporary equity support routes for eligible Chinese university entrepreneurs. Nationality, age, ownership, full-time work and company age conditions apply. [Status: Published entity; intake to confirm]

- China (Shanghai) Public Practicing Base for Entrepreneurs (中国（上海）创业者公共实训基地 · Incubator · Software AI, Hardware AI, Industry) — A municipal HRSS-backed public entrepreneurship training, prototyping and incubation base in Yangpu linking founder skills training, product trial spaces and startup service agencies. [Status: Published entity; intake to confirm]
- Fudan University (复旦大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Software AI, chips, AI for Science. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Tongji University (同济大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Autonomous systems, mobility, robotics, built environment. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- University of Shanghai for Science and Technology (上海理工大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Optics, medical devices, sensors, advanced equipment. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai University of Finance and Economics (上海财经大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Fintech, analytics, business models. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai University of Sport (上海体育大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Sports science, motion analysis, wearables. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]

### Funding routes

- Yangpu financing and credit service platform (杨浦融资信用服务平台 · Loan · No equity; repayable) — Product-specific technology credit and IP finance; no universal ceiling. Status: Published directory; lender review. Timing: Product-specific; confirm current lender terms.
- Yangpu Dream Start Angel Co-investment Fund (杨浦梦想起航天使引投基金 · Equity investment · Negotiated equity) — District state-backed early-stage equity co-investment; individual cheque subject to investment committee review. Status: Published investment platform; deal review. Timing: Manager-led sourcing and due diligence.

# Minhang

University commercialization, robotics, BCI and engineering

The enterprise innovation policy runs from 1 September 2025 to 31 August 2030. New conversion enterprises may qualify for up to RMB 500,000 annually, capped at RMB 1.5 million over three years and 50% of eligible investment. Evidence S101. Minhang amplifies enterprise sci-tech innovation_Policy Insights.

### Who receives the inquiry

Minhang science and technology authority

Official district website

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

### Before applying

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

Ask which current notice governs the project, whether registration and actual operations must both be in the district, which expenditure period is eligible, and whether previous municipal or district awards exclude a claim. Obtain the answer before moving a company or incurring costs.

### Local organizations in this atlas

- Grand neoBay / Zero Kilometer Incubator (大零号湾／零公里孵化器 · Incubator · Hardware AI, Software AI) — A university-linked commercialization route connecting early technology projects with incubation. SJTU documents the Zero Kilometer launch and its AI, integrated-circuit, manufacturing and low-carbon participants. [Status: Published entity; intake to confirm]
- Synlonx Brain-Computer Interface Incubator (司南脑机智能孵化器 · Incubator · Hardware AI, Health) — A brain-computer interface incubation platform launched in Huacao. Suitable conversations include electrodes, neural interfaces, sensing, rehabilitation and translational engineering; wet-lab and device requirements need explicit confirmation. [Status: Published entity; intake to confirm]
- Maqiao AI Innovation Zone (马桥人工智能创新试验区 · Technology park · Hardware AI, Robotics) — The Minhang 2025-2026 park plan links Grand neoBay R&D with Maqiao manufacturing. A useful pathway from a robot prototype to supply-chain and production conversations. [Status: Published entity; intake to confirm]
- Zizhu National Hi-Tech Park / ET Space (紫竹国家高新区／创业孵化器 ET 空间 · Incubator · Software AI, Hardware AI, Industry) — The park-owned incubator connects startups with the software, avionics and manufacturing ecosystem. Its operator describes industry challenges and collaborative innovation; current admission, space and fees require an intake discussion. [Status: Published entity; intake to confirm]

- Hongqiao International Youth Innovation Hub (虹桥国际青年创业港 · Incubator · Software AI, Industry) — Opened in July 2026 as a youth innovation and business-service hub in Hongqiao. The reported workstation offer depends on qualification and available space, not simply arrival at the transport hub. [Status: Published entity; intake to confirm]
- Shanghai Jiao Tong University (上海交通大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Robotics, chips, engineering, medical AI. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]

### Funding routes

- Minhang research commercialization support (闵行科技成果转化支持 · Grant · No equity) — New conversion enterprise: up to RMB 500,000/year; RMB 1.5m over three years; up to 50% of investment. Status: Policy in force; call not confirmed open. Timing: Policy: 1 Sep 2025 to 31 Aug 2030.
- Minhang core technology R&D projects (闵行关键核心技术攻关 · Grant · No equity) — General: up to RMB 3m at up to 30% of R&D; major: up to RMB 10m at up to 50%. Status: Policy in force; call not confirmed open. Timing: Policy through 31 Aug 2030.

# Jiading

Automotive intelligence, sensors, MEMS and pilot production

The municipal science commission documents the joint role of SITRI and InnoSpring in connecting research, pilot production and incubation. The 2026 district service program provides policy interpretation and project coordination. Evidence S006. 市科委、嘉定区联合调研高质量孵化器建设工作.

### Who receives the inquiry

Jiading science and technology authority

Official district website

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

### Before applying

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

Ask which current notice governs the project, whether registration and actual operations must both be in the district, which expenditure period is eligible, and whether previous municipal or district awards exclude a claim. Obtain the answer before moving a company or incurring costs.

### Local organizations in this atlas

- InnoSpring / SITRI incubation ecosystem (新微创源／上海微技术工研院孵化生态 · Incubator · Hardware AI, Chips, Sensors) — The municipal science commission records joint work between InnoSpring and SITRI. This is a route for beyond-Moore technology, shared technical services and pilot production rather than a promise of free fabrication. [Status: Published entity; intake to confirm]
- Tongji PAI Research Center (同济大学 PAI 研究中心 · Research platform · Hardware AI, Sensors) — The center publishes an industry collaboration entry for localization, sensing, communication and trusted coordination. We use its cooperation contact rather than assuming access through general university admissions. [Status: Published entity; intake to confirm]
- Xihe Optic Valley Optoelectronic Incubator (羲和光谷光电产业孵化器 · Incubator · Hardware AI, Sensors, Chips) — An optoelectronic and photonics incubator launched in Jiading in November 2025 to support scientist-founded teams in optical sensing, laser systems and AI hardware components. Confirm optical lab equipment, engineering support and commercial terms before admission. [Status: Published entity; intake to confirm]
- Shanghai Normal University Tianhua College (上海师范大学天华学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Applied education, engineering and digital business. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]

### Funding routes

- Jiading Future Industry Fund (嘉定未来产业基金 · Equity investment · Negotiated equity) — Announced fund scale RMB 800 million; individual investment not established. Status: Fund announced; deal intake to confirm. Timing: Manager-led sourcing; current deal intake to confirm.

Also compare citywide funding

# Baoshan

Robotics, advanced equipment and industrial deployment

The district is developing a robotics and advanced equipment cluster. Separate industrial-park admission and district support reviews are needed; a factory demonstration is not a startup funding call.

Evidence S102. 机器人进厂、上船、上街！宝山老工业基地奏响赛博旋律.

### Who receives the inquiry

Baoshan industry and science authorities

Official district website

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

### Before applying

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

Ask which current notice governs the project, whether registration and actual operations must both be in the district, which expenditure period is eligible, and whether previous municipal or district awards exclude a claim. Obtain the answer before moving a company or incurring costs.

### Local organizations in this atlas

- Shanghai Robot Industrial Park (上海机器人产业园 · Technology park · Hardware AI, Robotics) — A robotics industrial park in Gucun, Baoshan. Suitable for industrial robotics supply chains and deployment; we distinguish it from ABB facilities in Pudong and from the broader Baoshan industrial park. [Status: Published entity; intake to confirm]
- Baoshan Industrial Park (宝山工业园区 · Technology park · Industry, Hardware AI) — The park committee publishes an official contact and provides industrial admission, project attraction, policy coordination and business services. This is a separate park from the Gucun robot industrial park. [Status: Published entity; intake to confirm]

### Funding routes

- Baoshan pre-investment / later equity project call (宝山先投后股项目征集 · Convertible support · Potential equity conversion; review contract) — Amount and conversion terms require the actual project guide and agreement. Status: Closed. Timing: Closed 10 February 2026.

Also compare citywide funding

# Putuo

Industrial testing, intelligent software and international innovation

Wuning Science Park connects industrial research, testing and technology transfer. The district incubator register also lists the China-Israel Innovation Hub; tenancy and investment require separate terms.

Evidence S013. 上海武宁科技园_创业园区_上海市普陀区人民政府.

### Who receives the inquiry

Putuo science and technology authority

Official district website

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

### Before applying

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

Ask which current notice governs the project, whether registration and actual operations must both be in the district, which expenditure period is eligible, and whether previous municipal or district awards exclude a claim. Obtain the answer before moving a company or incurring costs.

### Local organizations in this atlas

- Wuning Science Park (上海武宁科技园 · Technology park · Hardware AI, Industry) — An industrial research and testing environment operated by the Shanghai Electrical Apparatus Research Institute group. Robot and industrial-internet testing are useful entry points for hardware validation. [Status: Published entity; intake to confirm]
- China-Israel Innovation Hub, Shanghai (中以（上海）创新园 · Technology park · Software AI, Hardware AI) — A district-listed carrier for international collaboration in intelligent manufacturing, AI, robotics and information technology. It supports market, capital and industrial connections; the listing does not guarantee cash support. [Status: Published entity; intake to confirm]
- Shanghai Tsinghua International Innovation Center (上海清华国际创新中心 · Research platform · Software AI, Hardware AI, Chips) — A strategic research and technology-transfer platform in Putuo's "One Axis, One Park, One Center" layout, connecting university engineering laboratories with Yangtze River Delta industrial applications. [Status: Published entity; intake to confirm]
- East China Normal University (华东师范大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Software, education AI, data science, microelectronics. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]

### Funding routes

- Putuo Technology Enterprise Seed Plan, second 2026 batch (2026 普陀科创企业种子计划第二批 · Grant · No equity) — RMB 300,000 per selected company; 50% initially, remainder after one-year development review. Status: Closed. Timing: Closed 31 August 2026.
- Putuo intelligent software industry support, 2026 (2026 普陀智能软件产业专项 · Grant / reimbursement · No equity) — Direction-specific R&D, compute, first-product matching and related support. Status: Closed. Timing: Closed 26 June 2026.
- Putuo R&D Platform Projects, 2026 (2026 普陀科技研发平台项目 · Grant · No equity) — Up to RMB 2 million; first payment at most 50%, balance subject to acceptance. Status: 2026 call published; not confirmed open. Timing: Confirm the deadline in the September 2026 notice.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

Ask which current notice governs the project, whether registration and actual operations must both be in the district, which expenditure period is eligible, and whether previous municipal or district awards exclude a claim. Obtain the answer before moving a company or incurring costs.

### Local organizations in this atlas

- Zhangjiang Hongkou Park / Beikechuang (张江虹口园／北科创 · Technology park · Software AI, Industry) — The park plan gives Beikechuang a coordinating role in incubation, technology transfer and investment services. Request the relevant sub-park and named operating company for a project-specific response. [Status: Published entity; intake to confirm]
- Hongkou Science & Technology Entrepreneurship Center (虹口区科技创业中心与博士后创新基地 · Incubator · Software AI, Industry, Climate) — District public entrepreneurship center and postdoctoral innovation practice base route supporting tech SMEs, green-shipping digital tools and R&D talent settlement in Hongkou. [Status: Published entity; intake to confirm]
- Shanghai International Studies University (上海外国语大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Language technology, translation, international markets. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Xianda College of Economics and Humanities, SISU (上海外国语大学贤达经济人文学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Language,

commerce and creative applications. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]

### Funding routes

- Hongkou international and overseas young talent support, first 2026 batch (2026 虹口国际顶尖及海外优秀青年人才扶持第一批 · Grant · No equity) — Recognized top talent and core team: up to RMB 1m; eligible overseas young talent: RMB 50,000 per person. Status: Closed. Timing: Closed 31 March 2026.

Also compare citywide funding

# Songjiang

G60 innovation, industrial software and advanced manufacturing

The G60 Sci-Tech Innovation Valley publishes innovation and resource-matching initiatives. We distinguish the nine-city corridor from Shanghai district eligibility: a partner elsewhere in the corridor does not establish Songjiang qualification.

Evidence S104. G60 unveils comprehensive support plan to fuel innovation valley | Songjiang.

### Who receives the inquiry

Songjiang G60 innovation services

Official district website

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

### Before applying

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

Ask which current notice governs the project, whether registration and actual operations must both be in the district, which expenditure period is eligible, and whether previous municipal or district awards exclude a claim. Obtain the answer before moving a company or incurring costs.

### Local organizations in this atlas

- G60 Songjiang Xinchuang Industrial Park (G60 松江信创产业园 · Technology park · Software AI, Chips) — An officially profiled industrial park for domestic information-technology innovation. For an AI infrastructure team, establish compatibility requirements, lab access and real customer demand before choosing space. [Status: Published entity; intake to confirm]
- Songjiang University Town Sci-Tech Source (松江大学城科创源 · Incubator · Software AI, Hardware AI, Materials) — A Songjiang district initiative backed by a September 2026 special-fund notice to link the seven universities in Songjiang University Town with technology-transfer platforms and incubation operators. [Status: Published entity; intake to confirm]
- Donghua University (东华大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Advanced fibers, materials, design, smart textiles. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai University of International Business and Economics (上海对外经贸大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Trade, commerce, cross-

border business. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]

- East China University of Political Science and Law (华东政法大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: IP, data governance, legal technology. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai University of Engineering Science (上海工程技术大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Engineering, mobility, manufacturing, design. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai Lida University (上海立达学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Applied business, design and creative technology. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai Institute of Visual Arts (上海视觉艺术学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Design, digital content and creative technology. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]

### Funding routes

- Songjiang technology-enterprise innovation and matching support (松江科技企业创新与配套支持 · Grant · No equity) — District innovation project up to RMB 100,000; approved municipal innovation projects matched 1:1 under the policy. Status: Policy in force; call not confirmed open. Timing: Policy: 1 January 2026 to 31 December 2027; confirm the applicable call.
- Songjiang Data Elements Special Fund, second 2026 batch (2026 松江区数据要素专项资金第二批 · Grant / reimbursement · No equity) — Project-specific support under the district data-elements special fund rules. Status: 2026 call published; deadline check required. Timing: Second 2026 batch notice issued August 2026; confirm current acceptance status.

Also compare citywide funding

# Qingpu

Huawei-linked research, digital systems and regional collaboration

Xicen links the Lianqiu Lake research center with an emerging innovation district. The official 2025 reply discusses early investment and technology transfer, but proposed funds are not treated here as open startup applications.

Evidence S022. 对市政协十四届三次会议 第 0746 号提案的答复_市建议提案办理结果_意见提案办理_政务公开_上海市青浦区人民政府.

### Who receives the inquiry

Qingpu science and technology authority

Official district website

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

### Before applying

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

Ask which current notice governs the project, whether registration and actual operations must both be in the district, which expenditure period is eligible, and whether previous municipal or district awards exclude a claim. Obtain the answer before moving a company or incurring costs.

### Local organizations in this atlas

- Xicen Science and Innovation Center (西岑科创中心 · Technology park · Hardware AI, Software AI) — A Qingpu innovation area centered on Huawei Lianqiu Lake and Xicen development. It offers an ecosystem connection, not automatic access to Huawei laboratories, procurement or investment. [Status: Published entity; intake to confirm]
- Yangtze River Delta AI+ Joint Innovation Center (长三角 AI+联合创新中心 · Corporate program · Software AI, Hardware AI) — An official July 2026 account records the center beginning operations in Qingpu. Confirm the operator, technical scope, Huawei ecosystem interface and actual startup admission before describing a benefit package. [Status: Published entity; intake to confirm]
- Shanghai University of Political Science and Law (上海政法学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Legal technology, IP, governance. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]

### Funding routes

- Qingpu digital economy compute reimbursement, September 2026 costs (青浦 2026 年 9 月算力费用补贴 · Reimbursement · No equity) — Amount under the applicable digital-economy rules; reviewed against eligible actual cost. Status: Closed. Timing: Closed 23 October 2026, 17:00 China Standard Time.
- Qingpu Enterprise Intelligent Transformation Support Fund, 2026 (2026 青浦区企业智能化改造扶持资金 · Grant / reimbursement · No equity) — Proportion of verified intelligent equipment, industrial software and digital-workshop investment. Status: 2026 call published; deadline check required. Timing: 2026 notice issued 31 July 2026; confirm current batch window.

Also compare citywide funding

# Jinshan

Drones, new materials and low-altitude systems

The 2025-2026 park plan names Jinshan New Materials Incubator, East China UAV Base and Bay Area incubation carriers. It connects testing and industrialization, subject to park admission and the applicable aviation permissions. Evidence S023. 金山区人民政府关于印发《张江高新区金山园改革创新发展行动方案(2025-2026 年)》的通知.

### Who receives the inquiry

Jinshan science and technology authority

Official district website

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

### Before applying

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

Ask which current notice governs the project, whether registration and actual operations must both be in the district, which expenditure period is eligible, and whether previous municipal or district awards exclude a claim. Obtain the answer before moving a company or incurring costs.

### Local organizations in this atlas

- East China UAV Base (华东无人机基地 · Technology park · Hardware AI, Drones) — The Jinshan park plan includes test-flight services and a low-altitude incubation platform. Airspace, testing and airworthiness services require separate confirmation from physical workspace. [Status: Published entity; intake to confirm]
- Jinshan New Materials Incubator (金山新材料孵化器 · Incubator · Materials, Hardware AI) — A materials incubation route linked to Carbon Valley Green Bay. Relevant to sensors, electronic materials and manufacturing inputs; specify process equipment and environmental constraints in the inquiry. [Status: Published entity; intake to confirm]
- Shanghai Zhongqiao Vocational and Technical University (上海中侨职业技术大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Vocational undergraduate engineering and applied skills. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]

### Funding routes

- Zhangjiang Jinshan Park low-altitude UAV and new materials support (张江金山园低空无人机与新材料创新支持 · Grant / reimbursement · No equity) — Policy-specific R&D, carrier incubation, testing-service and indus-

trialization support under the 2025-2026 park action plan. Status: Policy in force; call not confirmed open. Timing: Policy: 2025 to 2026 action plan; confirm current implementing batch.

Also compare citywide funding

# Fengxian

Robotics, beauty and health technology, advanced manufacturing

The robot industry measures cover qualifying registered companies working on intelligent robots. Oriental Beauty Valley provides a separate beauty and health industry context. Match the project to the correct policy owner and application batch.

Evidence S105. 奉贤区促进智能机器人产业创新发展若干政策措施.

### Who receives the inquiry

Fengxian economic commission

Official district website

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

### Before applying

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

Ask which current notice governs the project, whether registration and actual operations must both be in the district, which expenditure period is eligible, and whether previous municipal or district awards exclude a claim. Obtain the answer before moving a company or incurring costs.

### Local organizations in this atlas

- Oriental Beauty Valley (东方美谷 · Technology park · Health, Industry) — A Fengxian beauty and health industry ecosystem. Relevant AI applications include formulation research, inspection, consumer analysis and supply-chain tools; clinical or laboratory access is a separate arrangement. [Status: Published entity; intake to confirm]
- Oriental Beauty Valley Life Messenger Gene Drug Base (东方美谷·生命信使基因药物创新产业基地 · Incubator · Health, AI for Science) — Opened in April 2025 in Fengxian to connect gene and nucleic-acid drug R&D, AI-assisted molecular design, shared laboratories and pilot manufacturing. Confirm biosafety level, cleanroom specs and admission terms. [Status: Published entity; intake to confirm]
- Shanghai Institute of Technology (上海应用技术大学 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Applied engineering, materials, industrial AI. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]
- Shanghai Business School (上海商学院 · University) — Institutional entry in the June 2026 Ministry of Education register. Suggested collaboration themes: Digital retail, commerce, service innovation. These themes are editorial routing guidance, not a verified offer of laboratory access or startup funding. [Status: Published entity; intake to confirm]

### Funding routes

- Fengxian R&D expenditure increase reimbursement, 2026 (2026 奉贤研发费用增长补贴 · Reimbursement · No equity) — 30% of the qualifying annual R&D net increase, capped at RMB 1 million. Status: Closed. Timing: Online closed 17 June 2026, 17:00; paper closed 30 June 2026, 17:00 China Standard Time.
- Fengxian SME Technology Innovation Key Projects, 2026 (2026 奉贤科技型中小企业技术创新资金重点项目 · Grant · No equity) — Up to RMB 250,000; generally two installments, final settlement after acceptance. Status: Closed. Timing: Online closed 21 June 2026; paper closed 30 June 2026.
- Fengxian South Shanghai Sci-Tech Center "Open Competition" R&D Projects, 2026 (2026 奉贤"南上海科创中心"揭榜挂帅合作项目 · Grant · No equity) — Milestone-based R&D grant matched to technical challenge contract value. Status: 2026 call published; deadline check required. Timing: 2026 guide published May 2026; confirm current project batch.

Also compare citywide funding

# Chongming

Ecological technology, smart agriculture and marine systems

The 2025-2026 Chongming Park plan supplies current strategic context. The separate 2024 science innovation subsidy measures expired on 31 December 2025; we do not present those ceilings as current entitlements.

Evidence S025. 崇明区人民政府关于印发《张江高新区崇明园改革创新发展行动方案（2025-2026 年）》的通知.

### Who receives the inquiry

Chongming science and technology authority

Official district website

Published contact: +86 21 69695910.

### Before applying

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

Ask which current notice governs the project, whether registration and actual operations must both be in the district, which expenditure period is eligible, and whether previous municipal or district awards exclude a claim. Obtain the answer before moving a company or incurring costs.

### Local organizations in this atlas

- Zhangjiang Chongming Park (张江高新区崇明园 · Technology park · Climate, Agriculture) — The 2025-2026 reform plan sets a framework for ecological innovation. We use the district authority for matching smart agriculture, ecological sensing and marine technology projects to a concrete carrier. [Status: Published entity; intake to confirm]
- Chongming Enterprise Technology Center & Eco-Innovation Route (崇明区企业技术中心与生态科创平台 · Research platform · Climate, Agriculture, Industry) — Coordinated by the Chongming Economic Commission (14th batch call issued in May 2026) alongside district science authorities to support enterprise R&D centers in ecological tech, green manufacturing and smart agriculture. [Status: Published entity; intake to confirm]

### Funding routes

- Chongming early-stage enterprise development subsidy, 2026 (2026 崇明初创助力发展补贴 · Grant · No equity) — Up to RMB 100,000 for an assessed excellent qualifying early-stage project. Status: Policy in force; call not confirmed open. Timing: Policy: 1 August to 31 December 2026, with qualifying cases since 1 January; confirm intake.
- Chongming Entrepreneurship and Innovation Competition & Policy Support, 2026 (2026 崇明区创业创新大赛与联动扶持 · Competition · Award / investment terms vary) — Competition awards plus priority routing to district

startup subsidies, carrier incubation and guaranteed loans. Status: 2026 competition published; track intake to confirm. Timing: Implementation plan issued 20 August 2026; check track schedule.

PEOPLE & PLACES

# Incubators, accelerators and parks

45 profiles with evidence, contact routes and an application checklist. Published existence is distinguished from current intake.

# Shanghai Model Speed Space

上海模速空间

Incubator | Xuhui | Research checked 2026-11-04

AI and industry focus: Software AI.

A specialist large-model incubation and acceleration community on the West Bund. Its operator lists several zones; admission, workspace, compute support and investment are separate decisions.

Evidence S001. 模速空间.

### Status and support

Published entity; intake to confirm

Published support note: Services / possible incentives.

No standard cash award, fee waiver or equity percentage is verified for this entry. Request the current written offer.

### Contact and location

Official website / intake route

Published address: Zone A, 180 Longtai Road, Xuhui.

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

Map point is approximate, based on the published street context; it is not an entrance or navigation coordinate.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Send a project brief and request the current admission checklist.
2. Complete the operator’s eligibility and technical or commercial review.
3. Confirm rent, service fees, IP, compute pricing and any equity rights in writing.
4. Sign the agreed admission documents and record milestones and support owners.

Xuhui district route

# Zhangjiang Model Community

张江模力社区

Incubator | Pudong | Research checked 2026-11-04

AI and industry focus: Software AI, Hardware AI.

A Zhangjiang AI community identified in the municipal AI implementation plan. It links model developers and industry users. Ask the operator for the specific model, data and compute package and its reimbursement rules.

Evidence S002. 上海市人民政府办公厅印发《关于人工智能“模塑申城”的实施方案》的通知.

### Status and support

Published entity; intake to confirm

No standard cash award, fee waiver or equity percentage is verified for this entry. Request the current written offer.

### Contact and location

Official evidence and authority route

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

Map position uses a district or campus anchor; it is not a verified office location.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Send a project brief and request the current admission checklist.
2. Complete the operator’s eligibility and technical or commercial review.
3. Confirm rent, service fees, IP, compute pricing and any equity rights in writing.
4. Sign the agreed admission documents and record milestones and support owners.

Pudong district route

# Grand neoBay / Zero Kilometer Incubator

大零号湾／零公里孵化器

Incubator | Minhang | Research checked 2026-11-04

AI and industry focus: Hardware AI, Software AI.

A university-linked commercialization route connecting early technology projects with incubation. SJTU documents the Zero Kilometer launch and its AI, integrated-circuit, manufacturing and low-carbon participants.

Evidence S003. Official Launch of the Zero Kilometer Incubator in Grand Neobay - 上海交通大学港澳台办公室.

### Status and support

Published entity; intake to confirm

No standard cash award, fee waiver or equity percentage is verified for this entry. Request the current written offer.

### Contact and location

Official evidence and authority route

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

Map position uses a district or campus anchor; it is not a verified office location.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Send a project brief and request the current admission checklist.
2. Complete the operator’s eligibility and technical or commercial review.
3. Confirm rent, service fees, IP, compute pricing and any equity rights in writing.
4. Sign the agreed admission documents and record milestones and support owners.

Minhang district route

# Zhangjiang Hi-Tech 895 Incubator

张江高科 895 孵化器

Incubator | Pudong | Research checked 2026-11-04

AI and industry focus: Hardware AI, Chips.

A deep-technology incubator with chip-testing and industrialization context in Zhangjiang. Incubation and the associated angel investment pathway must be reviewed as different agreements.

Evidence S004. Shanghai uses innovation ecosystems to nurture future industries.

### Status and support

Published entity; intake to confirm

No standard cash award, fee waiver or equity percentage is verified for this entry. Request the current written offer.

### Contact and location

Official evidence and authority route

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

Map position uses a district or campus anchor; it is not a verified office location.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Send a project brief and request the current admission checklist.
2. Complete the operator’s eligibility and technical or commercial review.
3. Confirm rent, service fees, IP, compute pricing and any equity rights in writing.
4. Sign the agreed admission documents and record milestones and support owners.

Pudong district route

# Synlonx Brain-Computer Interface Incubator

司南脑机智能孵化器

Incubator | Minhang | Research checked 2026-11-04

AI and industry focus: Hardware AI, Health.

A brain-computer interface incubation platform launched in Huacao. Suitable conversations include electrodes, neural interfaces, sensing, rehabilitation and translational engineering; wet-lab and device requirements need explicit confirmation.

Evidence S005. 脑机接口产业注入新动能，司南脑机智能超级孵化器在闵行华漕镇启动丨投资前湾.

### Status and support

Published entity; intake to confirm

No standard cash award, fee waiver or equity percentage is verified for this entry. Request the current written offer.

### Contact and location

Official evidence and authority route

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

Map position uses a district or campus anchor; it is not a verified office location.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Describe the prototype, required equipment, process and testing needs.
2. Ask for a technical review, facility visit and itemized quotation.
3. Agree access, safety, sample and IP ownership, test scope and acceptance.
4. Separate the facility contract from investment or public-funding applications.

Minhang district route

# InnoSpring / SITRI incubation ecosystem

新微创源／上海微技术工研院孵化生态

Incubator | Jiading | Research checked 2026-11-04

AI and industry focus: Hardware AI, Chips, Sensors.

The municipal science commission records joint work between InnoSpring and SITRI. This is a route for beyond-Moore technology, shared technical services and pilot production rather than a promise of free fabrication.

Evidence S006. 市科委、嘉定区联合调研高质量孵化器建设工作.

### Status and support

Published entity; intake to confirm

No standard cash award, fee waiver or equity percentage is verified for this entry. Request the current written offer.

### Contact and location

Official evidence and authority route

Incubator | Pudong | Research checked 2026-11-04

AI and industry focus: Health, AI for Science.

A shared research and incubation environment in Zhangjiang Pharma Valley. Laboratory services and its innovation seed-fund relationships are relevant to AI-enabled biology; access and investment are negotiated separately.

Evidence S007. Locations - ATLATL.

### Status and support

Published entity; intake to confirm

No standard cash award, fee waiver or equity percentage is verified for this entry. Request the current written offer.

### Contact and location

Official website / intake route

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

Map position uses a district or campus anchor; it is not a verified office location.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Describe the prototype, required equipment, process and testing needs.
2. Ask for a technical review, facility visit and itemized quotation.
3. Agree access, safety, sample and IP ownership, test scope and acceptance.
4. Separate the facility contract from investment or public-funding applications.

Pudong district route

# Nest.Bio Shanghai Innovation Platform

巢生上海创新孵化平台

Incubator | Pudong | Research checked 2026-11-04

AI and industry focus: Health, AI for Science.

Recognized in the December 2025 high-quality incubation expansion, with synthetic biology and cell and gene therapy interests. Confirm current Shanghai facilities, admission and laboratory pricing with the operator.

Evidence S008. 上海高质量孵化器增至 18 家 新增 6 家涵盖合成生物、脑机智能、集成电路等领域.

### Status and support

Published entity; intake to confirm

No standard cash award, fee waiver or equity percentage is verified for this entry. Request the current written offer.

### Contact and location

Official evidence and authority route

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

Map position uses a district or campus anchor; it is not a verified office location.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Describe the prototype, required equipment, process and testing needs.
2. Ask for a technical review, facility visit and itemized quotation.
3. Agree access, safety, sample and IP ownership, test scope and acceptance.
4. Separate the facility contract from investment or public-funding applications.

Official evidence and authority route

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

Map position uses a district or campus anchor; it is not a verified office location.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Describe the prototype, required equipment, process and testing needs.
2. Ask for a technical review, facility visit and itemized quotation.
3. Agree access, safety, sample and IP ownership, test scope and acceptance.
4. Separate the facility contract from investment or public-funding applications.

Pudong district route

# WAIC / Future Tech venture network

世界人工智能大会／Future Tech 创投生态

Research platform | Citywide / global | Research checked 2026-11-04

AI and industry focus: Software AI, Hardware AI, Robotics, AI for Science.

The 2026 World Artificial Intelligence Conference included a Future Tech venture network connecting selected startups and investors. The July 2026 event has ended; this is a networking and future-event route, not a permanent incubator or an open funding call. Ask the organizer about the next startup selection, exhibition fees and investor sessions.

Evidence S078. WAIC 2026 Future Tech venture ecosystem.

Evidence S079. WAIC official organizer and contact route.

### Status and support

Historical / confirm continuation

No standard cash award, fee waiver or equity percentage is verified for this entry. Request the current written offer.

### Contact and location

Official website / intake route

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

Map position uses a district or campus anchor; it is not a verified office location.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Choose the correct competition track, region and applicant category.
2. Read the rules and submit the required project, team and IP evidence.
3. Complete selection or pitching; confirm prize and service conditions in writing.
4. Treat investor introductions and district funding as separate follow-up decisions.

Citywide / global district route

# Waigaoqiao bonded R&D and AI-health innovation services

外高桥保税研发与 AI 健康创新服务

Research platform | Pudong | Research checked 2026-11-04

AI and industry focus: AI for Science, Health, Hardware AI, Robotics.

The 2025-2026 Free Trade Bonded Park plan explicitly supports AI drug discovery, cross-border medical-device R&D, advanced-equipment innovation and foreign-funded R&D institutions. Foreign AI and hardware companies can use the authority route to explore local research, testing and commercialization arrangements. Confirm the specific operator, legal entity, customs boundary, sector permissions and data handling before incurring costs. This is a service and collaboration route; the plan is not a cash-award offer.

Evidence S082. Zhangjiang Free Trade Bonded Park innovation action plan, 2025-2026.

Evidence S083. Pudong foreign-investment measures: foreign-funded R&D and open innovation centers.

### Status and support

Published entity; intake to confirm

No standard cash award, fee waiver or equity percentage is verified for this entry. Request the current written offer.

CAPITAL & ACTION

# Capital, with its conditions attached

We compare what a program pays for, when value arrives, what must be repaid and whether ownership changes. The label “equity-free” alone answers too little.

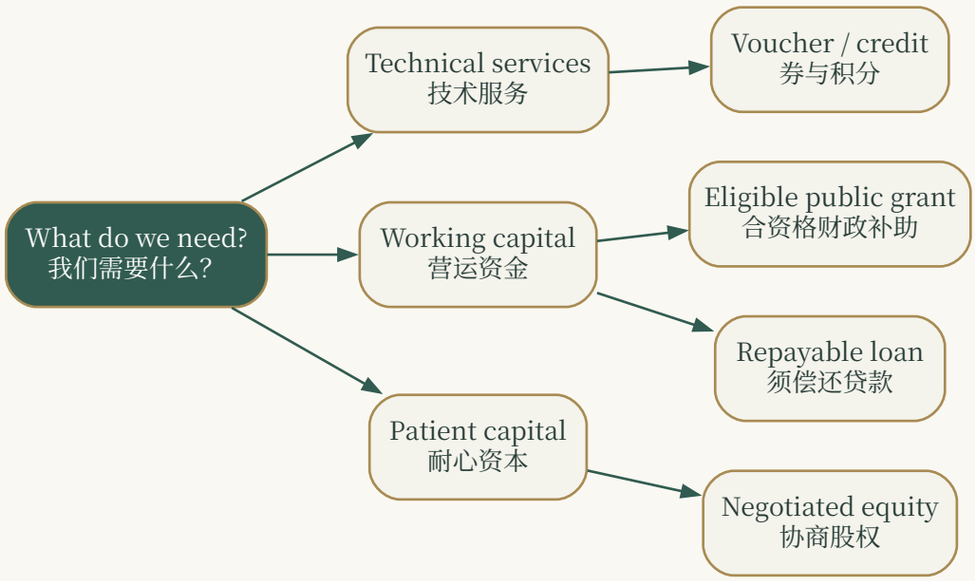

**Fig. 6** Match the resource need to the financing mechanism.

## Six mechanisms

A grant is conditional public or philanthropic support. A reimbursement pays against approved expenditure, often after spending. A voucher or credit can offset only eligible services. A loan must be repaid. A tax benefit changes a tax calculation. Equity investment exchanges capital for ownership or related contractual rights.

A competition may combine prizes, services and investment introductions, each with separate conditions. A subsidized desk is an in-kind benefit, not unrestricted cash. A government-backed fund is still an investment vehicle when it takes equity. An interest-free loan remains debt.

## Build a layered funding plan

Before registration, check whether team-level vouchers, university proof-of-concept support or competition routes accept the actual applicant. After incorporation, compare the company’s district and activity with public calls. For a

prototype, prioritize real lab, compute or customer needs. For expansion, match the amount and timing to investor or bank criteria.

We never add overlapping headline awards into a promised total. Programs can exclude duplicated spending, restrict related suppliers, require local operations, demand matching funds or pay only after acceptance. A company needs working capital for costs that arrive before reimbursement.

## Compare the real cost

For public support, compare eligible expense period, matching ratio, audit cost, tax treatment, reporting and clawback. For equity, compare valuation, ownership, liquidation preference, board rights, follow-on rights and exit terms. For debt, compare principal, interest, fees, guarantee or collateral, repayment schedule and default obligations.

For cloud benefits, check account region, supported services, expiry, existing credits and overage billing. China-region and global offers may use different operators and accounts. Free membership in a technology ecosystem does not guarantee hardware supply, credits or investment.

12

CAPITAL & ACTION

# Funding, without mixing the mechanisms

53 researched routes across citywide programs and all 16 districts. We distinguish equity-free support from repayable debt, credits and investment. No item is labelled open merely because its policy or web page exists.

Read the funding guide first

# Shanghai Science and Technology Innovation Vouchers

Reimbursement | Citywide / global

Policy in force; confirm service and order

Evidence S106. 关于印发《上海市科技创新券管理办法》的通知.

### Amount and mechanism

Up to 50% of eligible orders; annual cap RMB 300,000 per company or RMB 100,000 per team

No equity

### Eligibility and timing

Qualifying technology SMEs and innovation teams using approved platform services. Service-provider qualification is separate from applicant eligibility.

Policy: 1 Sep 2025 to 31 Aug 2030

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the actual category, area boundary, supplier and eligible expenditure period.
2. Keep service contracts, invoices, payment evidence and itemized usage logs.
3. Use the named platform and current batch; obtain the required district or operator review.
4. Check approved amount, duplicate-funding exclusions and payment conditions.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Technology SME Innovation Fund

Grant | Citywide / global

Policy in force; call not confirmed open

Evidence S107. Shanghai updates innovation fund rules for tech SMEs_Policy Insights.

### Amount and mechanism

Award and matching support depend on the annual call

No equity

### Eligibility and timing

Shanghai non-listed technology companies: prior-year revenue up to RMB 200 million; R&D at least RMB 500,000 and 5% of revenue; no more than 500 employees; R&D staff at least 10%. The current call may add conditions.

Policy: 9 Dec 2025 to 8 Dec 2030

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

ORGANIZATIONS / RESOURCES / CONTACTS

Reimbursement | Pudong

Closed

Evidence S099. 关于开展 2026 年度浦东新区促进人工智能产业高质量发展专项（大模型等 AI 新技术应用项目）申报工作的通知_政策性文件.

### Amount and mechanism

Support rate and amount subject to applicable implementing rules

No equity

### Eligibility and timing

Qualifying Pudong-benefiting projects with eligible 2025 model or agent expenses. Required filing or registration conditions apply; previously publicly funded projects cannot duplicate this support.

Closed 31 Aug 2026, 16:00 China Standard Time

### Contact and application

Official application / policy route

Published consultation: +86 21 68811090.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Historical 2026 procedure: prepare the signed application, use report and commitments.
2. Add application logs, special audit, expenditure schedule, contracts, invoices and payments.
3. Submit on the Pudong policy platform; the 31 August 2026 deadline has passed.
4. The receiving area administration or town reviews and recommends; seek a new notice for future claims.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Minhang research commercialization support

Grant | Minhang

Policy in force; call not confirmed open

Evidence S101. Minhang amplifies enterprise sci-tech innovation_Policy Insights.

### Amount and mechanism

New conversion enterprise: up to RMB 500,000/year; RMB 1.5m over three years; up to 50% of investment

No equity

### Eligibility and timing

Qualifying research-result conversion in Minhang. Registration, eligible expenditure, audit and annual notice conditions must be confirmed.

Policy: 1 Sep 2025 to 31 Aug 2030

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Minhang core technology R&D projects

Grant | Minhang

Policy in force; call not confirmed open

Evidence S101. Minhang amplifies enterprise sci-tech innovation_Policy Insights.

### Amount and mechanism

General: up to RMB 3m at up to 30% of R&D; major: up to RMB 10m at up to 50%

No equity

### Eligibility and timing

Project classification and investment thresholds apply. This is selective R&D support, not a general startup incorporation bonus.

Policy through 31 Aug 2030

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

ORGANIZATIONS / RESOURCES / CONTACTS

# STEFG Young Eagle Plan

Loan | Citywide / global

Program published; eligibility review

Evidence S043. 创业基金会.

### Amount and mechanism

Up to RMB 500,000; interest-free; 3 years; equal principal over 36 months

No equity; repayable

### Eligibility and timing

Chinese nationals aged at most 40 who meet the student/graduate rules; founder is the largest natural-person shareholder and legal representative; full-time startup; Shanghai company registered at most 3 years.

Confirm branch intake and review schedule

### Contact and application

Official application / policy route

Published consultation: +86 21 55231818.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the foundation's current eligibility rules and choose loan or temporary equity.
2. Identify a receiving branch and submit the prescribed founder and project documents.
3. Complete review and examine repayment, founder funding and exit obligations.
4. Sign the correct agreement and track the full three-year obligations.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# STEFG Eagle Plan

Equity investment | Citywide / global

Program published; eligibility review

Evidence S043. 创业基金会.

### Amount and mechanism

Up to RMB 800,000 for 3 years; no dividend participation; exit at original price

Temporary equity; original-price exit

### Eligibility and timing

Eligible technology entrepreneurs meeting the foundation rules; founder cash funding must exceed the foundation contribution. Review nominee ownership, exit obligation and documents.

Confirm branch intake and review schedule

### Contact and application

Official application / policy route

Published consultation: +86 21 55231818.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the foundation's current eligibility rules and choose loan or temporary equity.
2. Identify a receiving branch and submit the prescribed founder and project documents.
3. Complete review and examine repayment, founder funding and exit obligations.
4. Sign the correct agreement and track the full three-year obligations.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

ORGANIZATIONS / RESOURCES / CONTACTS

# Shanghai guaranteed startup loans

Loan | Citywide / global

Published service; current terms to confirm

Evidence S108. Shanghai's guaranteed start-up loans top 1.3 billion yuan this year_Editor's Pick.

### Amount and mechanism

Loan ceiling and interest support depend on applicant class and current rules

No equity; repayable

### Eligibility and timing

Individual, pre-startup and enterprise routes have different residence, education, registration and employment conditions. Bank underwriting still applies; an interest subsidy does not remove principal repayment.

Confirm current HRSS service rules

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Select the current bank or public guarantee product and check borrower eligibility.
2. Prepare accounts, cash-flow forecast, ownership and requested security documents.
3. Complete lender and guarantee assessment; compare all costs and repayment terms.
4. Sign and track debt service; claim interest support only if independently eligible.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# R&D super-deduction

Tax relief | Citywide / global

Published tax guidance; applicability review

Evidence S109. 上海市“2366”产业税收优惠政策指引.

### Amount and mechanism

Eligible expensed R&D: additional 100% deduction; eligible capitalized R&D: 200% amortization basis

No equity

### Eligibility and timing

Qualifying enterprise R&D costs with the required accounting and evidence. A tax deduction reduces taxable income; it is not cash equal to the expense or deduction.

Annual tax filing and applicable rules

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Check the current tax rules and recognition or accounting requirements.
2. Maintain qualifying R&D and income records with a qualified tax adviser.
3. Complete recognition where required and claim in the correct tax filing.
4. Retain evidence for review and separate tax savings from cash grants.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# High and New Technology Enterprise tax rate

Tax relief | Citywide / global

Published tax guidance; recognition required

Evidence S109. 上海市“2366”产业税收优惠政策指引.

### Amount and mechanism

15% corporate income tax for qualifying recognized enterprises

No equity

### Eligibility and timing

Recognition and continued compliance are required. Review IP, personnel, R&D, revenue mix and annual reporting; not all AI companies qualify.

Recognition batches and annual filing

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Check the current tax rules and recognition or accounting requirements.
2. Maintain qualifying R&D and income records with a qualified tax adviser.
3. Complete recognition where required and claim in the correct tax filing.
4. Retain evidence for review and separate tax savings from cash grants.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Startup in Shanghai International Competition, 2026

Competition | Citywide / global

2026 call published; deadline check required

Evidence S110. 2026“创•在上海”国际创新创业大赛征集通知_业务通知_上海市科学技术委员会.

### Amount and mechanism

Awards and connected investment depend on track; not guaranteed

Award / investment terms vary

### Eligibility and timing

Domestic and overseas teams and companies under the official track rules. Competition admission, innovation funding and investor interest are separate outcomes.

Check the specific 2026 track; not labelled open

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Choose the correct competition track, region and applicant category.
2. Read the rules and submit the required project, team and IP evidence.
3. Complete selection or pitching; confirm prize and service conditions in writing.
4. Treat investor introductions and district funding as separate follow-up decisions.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Haiju Talent Global Innovation Competition

Competition | Citywide / global

2026 competition published; track intake to confirm

Evidence S111. 海聚英才官网.

### Amount and mechanism

Track-specific awards, introductions and services

Award / investment terms vary

### Eligibility and timing

Apply through the official competition portal and qualifying division. District selection and final competition do not establish automatic funding or immigration status.

Confirm track and division dates

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Choose the correct competition track, region and applicant category.
2. Read the rules and submit the required project, team and IP evidence.
3. Complete selection or pitching; confirm prize and service conditions in writing.
4. Treat investor introductions and district funding as separate follow-up decisions.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Magnolia Talent Plan, Pujiang Project 2026

Grant | Citywide / global

2026 call published; not confirmed open

Evidence S112. 关于发布 2026 年度上海市白玉兰人才计划浦江项目申请指南的通知_项目申报_上海市科学技术委员会.

### Amount and mechanism

Category-specific support; consult the actual 2026 category

No equity

### Eligibility and timing

The July 2026 guide supports eligible overseas returnees through distinct categories. Scientific research and entrepreneurial routes must not be confused; host endorsement may be required.

Confirm category deadline and host review

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

ORGANIZATIONS / RESOURCES / CONTACTS

# NVIDIA Inception

In-kind services | Citywide / global

Program published; eligibility review

Evidence S040. Inception Program for Startups | NVIDIA.

### Amount and mechanism

Free membership; conditional ecosystem benefits, not a cash grant

No equity

### Eligibility and timing

Qualifying AI startups; check incorporation, developer, age and regional conditions. Product availability and partner credits are separately governed.

Online application; regional eligibility review

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Check incorporation, company age, account region and existing benefits.
2. Apply through the official program form or qualifying partner route.
3. Confirm covered services, expiry, fees, usage limits and overage billing.
4. Keep usage records and do not describe credits as unrestricted cash.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# AWS China Activate credits

Cloud credits | Citywide / global

Regional eligibility to confirm

Evidence S042. Amazon Web Services Activate-Amazon Web Services China Region.

### Amount and mechanism

Package-specific promotional credits for eligible China services

No equity stated in offer; verify terms

### Eligibility and timing

China-established unlisted startup and qualifying new-customer / participating partner relationship. Do not substitute global AWS account rules or credit ceilings.

Confirm current package and expiration

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Check incorporation, company age, account region and existing benefits.
2. Apply through the official program form or qualifying partner route.
3. Confirm covered services, expiry, fees, usage limits and overage billing.
4. Keep usage records and do not describe credits as unrestricted cash.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

ORGANIZATIONS / RESOURCES / CONTACTS

# Microsoft startup cloud resources

Cloud credits | Citywide / global

Regional eligibility to confirm

Evidence S041. What is Microsoft for Startups? | Microsoft Learn.

### Amount and mechanism

Offer-specific credits and technical resources

Verify current agreement

### Eligibility and timing

Apply online and verify company, region and account eligibility. Global benefits are not represented as China-region entitlements.

Confirm current application and credit validity

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Check incorporation, company age, account region and existing benefits.
2. Apply through the official program form or qualifying partner route.
3. Confirm covered services, expiry, fees, usage limits and overage billing.
4. Keep usage records and do not describe credits as unrestricted cash.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Pudong AI Seed Fund

Equity investment | Pudong

Fund announced; deal intake to confirm

Evidence S045. Pudong launches fund to boost AI industry.

### Amount and mechanism

Fund target RMB 2bn; first tranche RMB 500m; individual cheque not established

Negotiated equity

### Eligibility and timing

Seed-stage AI projects fitting the manager's mandate. The public launch does not establish a universal application form, valuation or shareholding percentage.

Manager-led sourcing and due diligence

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the manager, sector, stage and legal-entity fit.
2. Submit a deck, cap table, technology evidence, traction and financing plan.
3. Complete commercial, financial, technical and legal due diligence.
4. Review term sheet, investment committee conditions and definitive agreements.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Leading-industry and specialist AI funds

Equity investment | Citywide / global

Published investment platform; deal review

Evidence S044. 上海国投先导.

### Amount and mechanism

Vehicle-specific investment; fund size is not startup funding

Negotiated equity

### Eligibility and timing

AI, chip, healthcare and other mandate-compatible companies. Identify the direct-investment or subfund manager and review stage, domicile, return and ownership terms.

Investment committee process; no guaranteed award

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the manager, sector, stage and legal-entity fit.
2. Submit a deck, cap table, technology evidence, traction and financing plan.
3. Complete commercial, financial, technical and legal due diligence.
4. Review term sheet, investment committee conditions and definitive agreements.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Zhangjiang AI Town compute, model and corpus support

Reimbursement | Pudong

Quarterly scheme published; current intake to confirm

Evidence S113. 浦数局办理〔2026〕16 号（对浦东新区七届人大六次会议第 076146 号代表建议的答复）_两会办理.

### Amount and mechanism

Up to 100% of approved actual cost, capped at RMB 1m in each category; at most one year

No equity

### Eligibility and timing

AI companies registered and operating inside the specified town boundary, established or moved there no earlier than 1 Jan 2025. Expenses must be for qualifying model R&D or deployment; review the current quarterly guide.

Quarterly claims; confirm the current batch

### Contact and application

Official application / policy route

Published consultation: +86 21 58811024 ext. 5091.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the actual category, area boundary, supplier and eligible expenditure period.
2. Keep service contracts, invoices, payment evidence and itemized usage logs.
3. Use the named platform and current batch; obtain the required district or operator review.
4. Check approved amount, duplicate-funding exclusions and payment conditions.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

ORGANIZATIONS / RESOURCES / CONTACTS

# Shanghai AI compute, Token and corpus vouchers, 2026

Reimbursement | Citywide / global

First 2026 batch closed; later batches to verify

Evidence S114. 上海市经济信息化委关于组织 2026 年度上海市“模塑申城”工程相关补贴申报工作的通知.

### Amount and mechanism

Award depends on applicable category and assessment

No equity

### Eligibility and timing

Qualifying Shanghai AI model or agent developers and users purchasing eligible non-related-party services. Projects already receiving other municipal fiscal subsidy are excluded.

First batch closed 27 May 2026, 16:00 China Standard Time; notice plans quarterly follow-ups

### Contact and application

Official application / policy route

Published consultation: +86 21 23119377.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the actual category, area boundary, supplier and eligible expenditure period.
2. Keep service contracts, invoices, payment evidence and itemized usage logs.
3. Use the named platform and current batch; obtain the required district or operator review.
4. Check approved amount, duplicate-funding exclusions and payment conditions.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

ORGANIZATIONS / RESOURCES / CONTACTS

# Shanghai IP-backed finance product directory

Loan / insurance | Citywide / global

2026 directory published; lender review

Evidence S115. 知识产权金融服务平台_上海市知识产权局.

### Amount and mechanism

Bank and product-specific loan, insurance or trust terms

No equity; product obligations apply

### Eligibility and timing

The 2026 IP bureau directory supplies borrower criteria, collateral, rates, repayment, application steps and contacts by product. IP ownership and bank assessment matter.

Product-specific

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Select the current bank or public guarantee product and check borrower eligibility.
2. Prepare accounts, cash-flow forecast, ownership and requested security documents.
3. Complete lender and guarantee assessment; compare all costs and repayment terms.
4. Sign and track debt service; claim interest support only if independently eligible.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# First equipment, first tape-out, materials and software routes

Grant / market access | Citywide / global

Published route; current call to confirm

Evidence S116. 市政府新闻发布会介绍《上海市促进专精特新中小企业发展壮大的若干措施》相关情况.

### Amount and mechanism

Program-specific; no common award ceiling established

No equity for qualifying public support

### Eligibility and timing

Shanghai policy identifies these routes for qualifying specialized SMEs and new products. Recognition, insurance compensation, procurement and R&D support are separate mechanisms; obtain the current call.

Track-specific notices

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

ORGANIZATIONS / RESOURCES / CONTACTS

# Shanghai early-stage startup social-insurance subsidy

Reimbursement | Citywide / global

Policy in force; call not confirmed open

Evidence S117. Shanghai startup social-insurance, incubation rent and first-startup subsidies, valid through 2027.

### Amount and mechanism

50% of specified employer contributions at the minimum contribution base; up to 8 people per month, within 36 months of registration

No equity

### Eligibility and timing

Qualifying new startup organizations led by eligible local workers or specified residence/returnee categories, after employing workers for 6 months. Support is calculated against eligible local workers; avoid duplicate employment subsidies for the same person.

Policy through 31 Dec 2027; confirm district procedure

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Shanghai pre-registration incubation rent subsidy

Reimbursement | Citywide / global

Policy in force; call not confirmed open

Evidence S117. Shanghai startup social-insurance, incubation rent and first-startup subsidies, valid through 2027.

### Amount and mechanism

Actual workstation cost before registration; up to RMB 10,000 and at most 6 months

No equity

### Eligibility and timing

Teams entering a municipal demonstration incubation base and establishing a qualifying startup organization during incubation. Only the period from admission to registration is covered. Ask the base and district employment service for the current evidence and filing procedure.

Policy through 31 Dec 2027; confirm district procedure

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

ORGANIZATIONS / RESOURCES / CONTACTS

# Shanghai first-startup one-off subsidy

Grant | Citywide / global

Policy in force; call not confirmed open

Evidence S117. Shanghai startup social-insurance, incubation rent and first-startup subsidies, valid through 2027.

### Amount and mechanism

One-off RMB 8,000 for qualifying founders

No equity

### Eligibility and timing

Shanghai-hukou graduates within 2 years of graduation or recognized local people with employment difficulties. First qualifying startup must have operated for 1 year and paid employee social insurance for at least one person for 6 months. This is not a universal incorporation award.

Policy through 31 Dec 2027; confirm district procedure

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Changning AI Industry Projects, 2026

Grant | Changning

Closed

Evidence S118. 上海市长宁区人民政府-长宁区财政局-工作动态-2026 年度长宁区人工智能产业项目申报指南.

### Amount and mechanism

Project-specific support after assessment; no common ceiling established

No equity

### Eligibility and timing

Lawfully established Changning legal or non-legal-person organizations with normal operations and good credit. The call covers multiple AI, software, technology-service and market-development directions.

Closed 30 June 2026

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Changning Technology Star Teams, 2026

Grant | Changning

Closed

Evidence S119. 上海市长宁区人民政府-长宁区财政局-通知公告-关于开展 2026 年度长宁区“科技之星”团队项目申报工作的通知.

### Amount and mechanism

Funding for assessed and recognized teams under the district talent fund plan

No equity

### Eligibility and timing

Eligible teams in AI, industrial internet and biomedicine at organizations established or operating lawfully in Changning. Required evidence includes research outcomes, employment contracts and commitments.

Closed 26 June 2026

### Contact and application

Official application / policy route

Published consultation: +86 21 22050986.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Putuo Technology Enterprise Seed Plan, second 2026 batch

Grant | Putuo

Closed

Evidence S120. 关于开展 2026 年度普陀区科创企业“种子计划”（第二批）申报工作的通知-上海普陀.

### Amount and mechanism

RMB 300,000 per selected company; 50% initially, remainder after one-year development review

No equity

### Eligibility and timing

Lawfully established technology companies with good credit. Online application is accompanied by stamped paper materials through the responsible investment promotion center; the science commission evaluates the project.

Closed 31 August 2026

### Contact and application

Official application / policy route

Published consultation: +86 21 52564588 ext. 8627.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Putuo intelligent software industry support, 2026

Grant / reimbursement | Putuo

Closed

Evidence S121. 关于发布 2026 年度普陀区加快发展智能软件产业专项申报指南的通知-上海普陀.

### Amount and mechanism

Direction-specific R&D, compute, first-product matching and related support

No equity

### Eligibility and timing

Good-credit legal or non-legal-person organizations. The call distinguishes R&D collaboration, compute use for models and agents, recognized technical breakthroughs and other directions; approval and eligible periods differ.

Closed 26 June 2026

### Contact and application

Official application / policy route

Published consultation: +86 21 52564588 ext. 7166.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

ORGANIZATIONS / RESOURCES / CONTACTS

# Putuo R&D Platform Projects, 2026

Grant | Putuo

2026 call published; not confirmed open

Evidence S122. 关于开展 2026 年度普陀区科技研发平台项目申报工作的通知-上海普陀.

### Amount and mechanism

Up to RMB 2 million; first payment at most 50%, balance subject to acceptance

No equity

### Eligibility and timing

Lawfully established, good-credit legal or non-legal-person organizations building qualifying R&D platforms. Online registration requires district review; credit commitments and prescribed materials are required.

Confirm the deadline in the September 2026 notice

### Contact and application

Official application / policy route

Published consultation: +86 21 52564588 ext. 8628.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Songjiang technology-enterprise innovation and matching support

Grant | Songjiang

Policy in force; call not confirmed open

Evidence S123. 关于印发《松江区关于加快科技企业高质量创新发展的若干措施（试行）》的通知.

### Amount and mechanism

District innovation project up to RMB 100,000; approved municipal innovation projects matched 1:1 under the policy

No equity

### Eligibility and timing

Qualifying technology enterprises under the 2026-2027 measures and implementing rules. Different recognition, commercialization and voucher provisions must be checked separately.

Policy: 1 January 2026 to 31 December 2027; confirm the applicable call

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Qingpu digital economy compute reimbursement, September 2026 costs

Reimbursement | Qingpu

Closed

Evidence S124. 关于组织 2026 年度青浦区数字经济和数智化建设专项申报工作的通知_业务工作_政务公开目录_政务公开_青浦区数据局_上海市青浦区人民政府.

### Amount and mechanism

Amount under the applicable digital-economy rules; reviewed against eligible actual cost

No equity

### Eligibility and timing

Eligible R&D rental of non-related-party intelligent compute; storage, networking and security are excluded. The provider must hold the specified IDC/ISP licence. Other fiscal support for the same project and year is generally excluded.

Closed 23 October 2026, 17:00 China Standard Time

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the actual category, area boundary, supplier and eligible expenditure period.

4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Chongming early-stage enterprise development subsidy, 2026

Grant | Chongming

Policy in force; call not confirmed open

Evidence S127. 上海市崇明区人力资源和社会保障局关于印发《崇明区关于新时期强化创业创新促进产业高质量发展的若干政策措施》的通知-上海市崇明区人民政府.

### Amount and mechanism

Up to RMB 100,000 for an assessed excellent qualifying early-stage project

No equity

### Eligibility and timing

Startup organizations incubated in a carrier or closely supported by a township park, with qualifying emerging-industry or niche innovation and growth potential. The July policy is distinct from the expired 2024 science measures.

Policy: 1 August to 31 December 2026, with qualifying cases since 1 January; confirm intake

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Hongkou international and overseas young talent support, first 2026 batch

Grant | Hongkou

Closed

Evidence S128. 虹口区 2026 年第一批国际顶尖人才及海外优秀青年人才引进扶持资金申报工作启动啦！-上海市虹口区人民政府.

### Amount and mechanism

Recognized top talent and core team: up to RMB 1m; eligible overseas young talent: RMB 50,000 per person

No equity

### Eligibility and timing

Strict category-specific talent recognition and Hongkou employment rules apply. Email pre-review is followed by paper submission at the district talent service center; this is not a grant for every foreign founder.

Closed 31 March 2026

### Contact and application

Official application / policy route

Published consultation: +86 21 65123028.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Jiading Future Industry Fund

Equity investment | Jiading

Fund announced; deal intake to confirm

Evidence S129. Jiading launches 800m-yuan future industry fund.

### Amount and mechanism

Announced fund scale RMB 800 million; individual investment not established

Negotiated equity

### Eligibility and timing

Projects within the fund manager's current future-industry mandate. Confirm the responsible manager, direct or subfund route, stage and domicile requirements. Fund scale is not a per-company award.

Manager-led sourcing; current deal intake to confirm

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the manager, sector, stage and legal-entity fit.
2. Submit a deck, cap table, technology evidence, traction and financing plan.
3. Complete commercial, financial, technical and legal due diligence.
4. Review term sheet, investment committee conditions and definitive agreements.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Baoshan pre-investment / later equity project call

Convertible support | Baoshan

Closed

Evidence S130. 宝山人才政策月历·1 月刊.

### Amount and mechanism

Amount and conversion terms require the actual project guide and agreement

Potential equity conversion; review contract

### Eligibility and timing

The district January 2026 policy calendar identifies a science-commission call for pre-investment / later equity projects. Verify the recipient, milestone and conversion conditions rather than labelling this an unrestricted equity-free grant.

Closed 10 February 2026

### Contact and application

Official application / policy route

Published consultation: +86 21 56160454.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the manager, sector, stage and legal-entity fit.
2. Submit a deck, cap table, technology evidence, traction and financing plan.
3. Complete commercial, financial, technical and legal due diligence.
4. Review term sheet, investment committee conditions and definitive agreements.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Huangpu financing and credit product directory

Loan | Huangpu

Published directory; lender review

Evidence S131. 黄浦区融资信用服务平台-银行产品.

### Amount and mechanism

Product-specific bank credit, startup guarantee and IP-backed finance

No equity; repayable

### Eligibility and timing

Select the actual bank product on the official district platform. Credit eligibility, guarantee, rates, fees, collateral and repayment depend on the lender and company; the directory is not an approval.

Product-specific; confirm current lender terms

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Select the current bank or public guarantee product and check borrower eligibility.
2. Prepare accounts, cash-flow forecast, ownership and requested security documents.
3. Complete lender and guarantee assessment; compare all costs and repayment terms.
4. Sign and track debt service; claim interest support only if independently eligible.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Yangpu financing and credit service platform

Loan | Yangpu

Published directory; lender review

Evidence S132. 金融产品.

### Amount and mechanism

Product-specific technology credit and IP finance; no universal ceiling

No equity; repayable

### Eligibility and timing

Use the district platform to identify an actual lender and product. Technology performance-guarantee lending, IP-backed products and guarantees have different duties and underwriting conditions.

Product-specific; confirm current lender terms

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Select the current bank or public guarantee product and check borrower eligibility.
2. Prepare accounts, cash-flow forecast, ownership and requested security documents.
3. Complete lender and guarantee assessment; compare all costs and repayment terms.
4. Sign and track debt service; claim interest support only if independently eligible.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Jing’an Service Industry Guidance Fund and AI Demonstration Support, 2026

Grant | Jing’an

2026 call published; deadline check required

Evidence S133. 关于开展 2026 年第二批静安区服务业发展引导资金项目申报工作的通知.

### Amount and mechanism

Project-specific support under the district service-industry guidance fund rules, matched to qualifying project investment

No equity

### Eligibility and timing

Lawfully registered, tax-paying legal-person organizations in Jing’an with sound credit, advancing modern services, enterprise AI, data services or digital commerce under the 2026 batch rules and 2026-2028 AI demonstration plan.

Second 2026 batch published May 2026; confirm current sub-district recommending window

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Zhangjiang Jinshan Park low-altitude UAV and new materials support

Grant / reimbursement | Jinshan

Policy in force; call not confirmed open

Evidence S023. 金山区人民政府关于印发《张江高新区金山园改革创新发展行动方案(2025-2026 年)》的通知.

### Amount and mechanism

Policy-specific R&D, carrier incubation, testing-service and industrialization support under the 2025-2026 park action plan

No equity

### Eligibility and timing

Qualifying enterprises and innovation carriers in Zhangjiang Jinshan Park working on low-altitude UAV systems, new chemical or electronic materials, biomanufacturing and intelligent equipment.

Policy: 2025 to 2026 action plan; confirm current implementing batch

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Yangpu Dream Start Angel Co-investment Fund

Equity investment | Yangpu

Published investment platform; deal review

Evidence S134. 杨浦梦想起航天使引投基金投资不筹量子 A 轮 助力中性原子量子计算跑出“加速度”_上海市杨浦区人民政府.

### Amount and mechanism

District state-backed early-stage equity co-investment; individual cheque subject to investment committee review

Negotiated equity

### Eligibility and timing

Early-stage hard-tech, quantum computing, brain-inspired AI and university spinout enterprises settling or operating in Yangpu alongside qualifying lead investors.

Manager-led sourcing and due diligence

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the manager, sector, stage and legal-entity fit.
2. Submit a deck, cap table, technology evidence, traction and financing plan.
3. Complete commercial, financial, technical and legal due diligence.
4. Review term sheet, investment committee conditions and definitive agreements.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Songjiang Data Elements Special Fund, second 2026 batch

Grant / reimbursement | Songjiang

2026 call published; deadline check required

Evidence S135. 关于开展 2026 年度第二批松江区数据要素专项资金项目申报的通知.

### Amount and mechanism

Project-specific support under the district data-elements special fund rules

No equity

### Eligibility and timing

Lawfully operating Songjiang organizations developing high-quality datasets, corpus governance, data-product listings or AI data-space applications.

Second 2026 batch notice issued August 2026; confirm current acceptance status

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Qingpu Enterprise Intelligent Transformation Support Fund, 2026

Grant / reimbursement | Qingpu

2026 call published; deadline check required

Evidence S136. 关于开展 2026 年度青浦区企业智能化改造扶持资金项目申报的通知_通知公告_经济委员会_上海市青浦区人民政府.

### Amount and mechanism

Proportion of verified intelligent equipment, industrial software and digital-workshop investment

No equity

### Eligibility and timing

Qualifying Qingpu manufacturing and technology enterprises implementing intelligent factories, industrial AI inspection or digital supply-chain upgrades.

2026 notice issued 31 July 2026; confirm current batch window

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Fengxian South Shanghai Sci-Tech Center “Open Competition” R&D Projects, 2026

Grant | Fengxian

2026 call published; deadline check required

Evidence S137. 奉贤区 2026 年“南上海科创中心”创新行动计划 —“揭榜挂帅”合作项目申报指南_通知公告.

### Amount and mechanism

Milestone-based R&D grant matched to technical challenge contract value

No equity

### Eligibility and timing

Enterprises, universities and research institutes jointly tackling published core technical bottlenecks in robotics, biomedicine, new materials or green chemistry in Fengxian.

2026 guide published May 2026; confirm current project batch

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Chongming Entrepreneurship and Innovation Competition & Policy Support, 2026

Competition | Chongming

2026 competition published; track intake to confirm

Evidence S138. 关于印发《2026 年崇明区创业创新大赛实施方案》的通知-上海市崇明区人民政府.

### Amount and mechanism

Competition awards plus priority routing to district startup subsidies, carrier incubation and guaranteed loans

Award / investment terms vary

### Eligibility and timing

Startup teams and early-stage enterprises aligned with Chongming ecological tech, smart agriculture, marine equipment, green energy and digital economy.

Implementation plan issued 20 August 2026; check track schedule

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Choose the correct competition track, region and applicant category.
2. Read the rules and submit the required project, team and IP evidence.
3. Complete selection or pitching; confirm prize and service conditions in writing.
4. Treat investor introductions and district funding as separate follow-up decisions.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Lin-gang Zero Cube conditional rent support

In-kind services | Pudong

Published service; current terms to confirm

Evidence S076. Lin-gang Zero Cube OPC community, August 2026.

### Amount and mechanism

Qualifying offices: 3 years rent-free, then 2 years at half rent; separate housing and service terms

No equity stated in offer; verify terms

### Eligibility and timing

Selected OPC and small-team projects admitted by the community. The August 2026 operator report is not a tenancy offer for every applicant. Confirm current selection, eligible premises, deposits, service charges and exit terms in writing.

Confirm current community admission and tenancy terms

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Send a project brief and request the current admission checklist.
2. Complete the operator’s eligibility and technical or commercial review.
3. Confirm rent, service fees, IP, compute pricing and any equity rights in writing.
4. Sign the agreed admission documents and record milestones and support owners.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Xuhui Qingmiao early AI investment route

Equity investment | Xuhui

Published investment platform; deal review

Evidence S077. Xuhui Qingmiao AI Youth Entrepreneurship Fund and camp, August 2026.

### Amount and mechanism

Manager-reviewed early-stage investment; no universal cheque or equity percentage verified

Negotiated equity

### Eligibility and timing

Youth-led early AI projects matching the fund mandate. The August 2026 camp notice documents investment activity and organizers, not an always-open application or guaranteed grant. Request the responsible manager, screening pack, local-operation conditions and term sheet.

Manager-led sourcing and due diligence

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the manager, sector, stage and legal-entity fit.
2. Submit a deck, cap table, technology evidence, traction and financing plan.
3. Complete commercial, financial, technical and legal due diligence.
4. Review term sheet, investment committee conditions and definitive agreements.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Lin-gang OPC AI-tool service cost support

Reimbursement | Pudong

Published policy; implementing intake to confirm

Evidence S139. Lin-gang OPC policy: AI tool services and open-source development, 2026.

### Amount and mechanism

Up to 80% of qualifying AI-tool service costs; applicable caps and conditions require the implementing notice

No equity for qualifying public support

### Eligibility and timing

Eligible OPCs purchasing approved technical services under the March 2026 measures. Foreign-founded teams should confirm the required local entity, community recognition, eligible invoices and supplier rules. Foreign ownership or a foreign parent alone does not establish grant eligibility; verify the written current procedure.

Confirm current implementing notice and intake

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the actual category, area boundary, supplier and eligible expenditure period.
2. Keep service contracts, invoices, payment evidence and itemized usage logs.
3. Use the named platform and current batch; obtain the required district or operator review.
4. Check approved amount, duplicate-funding exclusions and payment conditions.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Lin-gang OPC open-source AI-tool development reward

Grant | Pudong

Published policy; implementing intake to confirm

Evidence S139. Lin-gang OPC policy: AI tool services and open-source development, 2026.

### Amount and mechanism

Annual reward up to RMB 1 million for qualifying AI-tool development and listing on major international open-source platforms

No equity for qualifying public support

### Eligibility and timing

A distinct developer reward under the March 2026 OPC measures, rather than reimbursement for buying AI services. Confirm qualifying deployment, assessment and local-operation requirements. Foreign teams must obtain a written eligibility decision for the applicant entity; an overseas repository listing alone is insufficient.

Confirm current implementing notice and intake

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

# Pudong foreign-funded R&D and open-innovation support

Grant / market access | Pudong

Published policy; implementing intake to confirm

Evidence S083. Pudong foreign-investment measures: foreign-funded R&D and open innovation centers.

### Amount and mechanism

Conditional R&D-center support under the applicable recognition and funding rules; no universal cash ceiling established

No equity for qualifying public support

### Eligibility and timing

The 2025 measures explicitly support qualifying foreign-funded R&D centers and foreign-invested open innovation centers (GOI). Relevant to AI and hardware companies considering a Pudong or Waigaoqiao research presence. A foreign parent alone is insufficient: confirm local registration, center recognition, project location, sector restrictions and the actual funding call with the Pudong commerce authority.

Policy through 31 December 2027; confirm the implementing call

### Contact and application

Official application / policy route

The linked authority or operator is the contact route. A direct current program contact is not established in this profile.

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Read the dated call and verify district, entity, activity and spending-period rules.
2. Prepare the prescribed pack and complete host or district endorsement if required.
3. Submit through the official platform before the stated deadline and keep the receipt.
4. Follow review, award, reporting, acceptance and payment obligations in the notice.

The published maximum is a ceiling, not an entitlement. Check the applicable notice, eligible cost period, other public support and written payment conditions.

13

CAPITAL & ACTION

# Investors and patient capital

7 profiles with evidence, contact routes and an application checklist. Published existence is distinguished from current intake.

# STEFG Angel Fund

上海市大学生科技创业基金会天使基金

Investor | Yangpu | Research checked 2026-11-04

AI and industry focus: Software AI, Hardware AI, Industry.

The foundation offers distinct interest-free loan and temporary equity support routes for eligible Chinese university entrepreneurs. Nationality, age, ownership, full-time work and company age conditions apply.

Evidence S043. 创业基金会.

### Status and support

Published entity; intake to confirm

Funding mechanism: Loan / temporary equity.

### Contact and location

Official website / intake route

Telephone: +86 21 55231818.

Published address: Room 108, Building 10, 8 Jinian Road, Yangpu.

Map position uses a district or campus anchor; it is not a verified office location.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the manager, sector, stage and legal-entity fit.
2. Submit a deck, cap table, technology evidence, traction and financing plan.
3. Complete commercial, financial, technical and legal due diligence.
4. Review term sheet, investment committee conditions and definitive agreements.

Yangpu district route

# Shanghai Leading Industry Funds

上海三大先导产业母基金

Investor | Citywide / global | Research checked 2026-11-04

AI and industry focus: Software AI, Hardware AI, Chips, Health.

A state-backed fund platform for leading industries, with AI interests including general AI, computing systems, humanoids, vertical models and edge AI. A fund-of-funds commitment is not a startup award or a direct application entitlement.

Evidence S044. 上海国投先导.

### Status and support

Published entity; intake to confirm

Funding mechanism: Equity investment.

### Contact and location

Official website / intake route

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

Map position uses a district or campus anchor; it is not a verified office location.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the manager, sector, stage and legal-entity fit.
2. Submit a deck, cap table, technology evidence, traction and financing plan.
3. Complete commercial, financial, technical and legal due diligence.
4. Review term sheet, investment committee conditions and definitive agreements.

Citywide / global district route

# Pudong AI Seed Fund

浦东人工智能种子基金

Investor | Pudong | Research checked 2026-11-04

AI and industry focus: Software AI, Hardware AI.

Announced in July 2025 at a target size of RMB 2 billion and an initial RMB 500 million tranche. The figure is fund scale, not a per-startup cheque. Seek the manager through Pudong's official ecosystem route.

Evidence S045. Pudong launches fund to boost AI industry.

### Status and support

Published entity; intake to confirm

Funding mechanism: Equity investment.

### Contact and location

Map position uses a district or campus anchor; it is not a verified office location.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the manager, sector, stage and legal-entity fit.
2. Submit a deck, cap table, technology evidence, traction and financing plan.
3. Complete commercial, financial, technical and legal due diligence.
4. Review term sheet, investment committee conditions and definitive agreements.

Pudong district route

ORGANIZATIONS / RESOURCES / CONTACTS

# Shanghai STVC Group

上海科技创业投资集团

Investor | Citywide / global | Research checked 2026-11-04

AI and industry focus: Chips, Health, Software AI.

An established science and technology investment group within Shanghai's state-capital ecosystem. Use its official portfolio and manager information to identify the appropriate investment vehicle and stage.

Evidence S047. Shanghai Science & Technology Venture Capital (Group) Co., Ltd..

### Status and support

Published entity; intake to confirm

Funding mechanism: Equity investment.

### Contact and location

Official website / intake route

Use the official website to request the responsible team and current application route. Email addresses are not reproduced in this publication.

Map position uses a district or campus anchor; it is not a verified office location.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the manager, sector, stage and legal-entity fit.
2. Submit a deck, cap table, technology evidence, traction and financing plan.
3. Complete commercial, financial, technical and legal due diligence.
4. Review term sheet, investment committee conditions and definitive agreements.

Citywide / global district route

# Qiming Venture Partners

启明创投

Investor | Pudong | Research checked 2026-11-04

AI and industry focus: Software AI, Health, Hardware AI.

A venture-capital contact route with a published Shanghai office. Send a concise investment case and confirm sector and stage fit. The general contact inbox is not a guarantee of an investment review.

Evidence S048. Contact Us | Qiming Venture Partners.

### Status and support

Published entity; intake to confirm

Funding mechanism: Equity investment.

### Contact and location

Official website / intake route

Telephone: +86 21 61016522.

Published address: Room 3901, Jinmao Tower, 88 Century Boulevard, Pudong.

Map point is approximate, based on the published street context; it is not an entrance or navigation coordinate.

### Application workflow

Editorial application checklist. The current official notice or agreement controls the actual procedure.

1. Confirm the manager, sector, stage and legal-entity fit.
2. Submit a deck, cap table, technology evidence, traction and financing plan.
3. Complete commercial, financial, technical and legal due diligence.
4. Review term sheet, investment committee conditions and definitive agreements.

Pudong district route

# Xuhui Qingmiao AI Youth Entrepreneurship Fund

徐汇人工智能青年创业基金（青苗基金）

Investor | Xuhui | Research checked 2026-11-04

AI and industry focus: Software AI, Hardware AI.

Xuhui established this youth-focused AI fund in September 2025. Its August 2026 entrepreneurship camp connected early AI teams with investment, research and industrial partners. Shanghai Xuhui Capital Investment and Shanghai Xuhui Science and Technology Venture Capital Fund Management co-hosted the camp. Request the receiving manager and current investment terms; camp attendance is not an investment award.

Evidence S077. Xuhui Qingmiao AI Youth Entrepreneurship Fund and camp, August 2026.

### Status and support

Published entity; intake to confirm

No standard cash award, fee waiver or equity percentage is verified for this entry. Request the current written offer.

CAPITAL & ACTION

# From introduction to application

A useful application starts with a fit check and ends with an evidence trail. We keep one company data room, then adapt it to an incubation review, a public funding call, a corporate pilot or an investment process.

**Fig. 7** A clear application separates eligibility, evidence and the decision.

## The first conversation

We send a one-page introduction in English and Simplified Chinese: company and team, customer problem, product, evidence, current stage, Shanghai presence and the exact resource requested. We ask for the named receiving team and written current terms. A first message should be small enough to forward to the right person.

Suggested subject: Shanghai ecosystem inquiry / project name / incubation, pilot or funding. Suggested request: We are developing [product] for [customer]. Our evidence is [metric or prototype]. We seek [specific resource] during [period]. Please confirm eligibility, intake dates, the application checklist, fees or equity terms, and the responsible contact.

## The shared data room

Company: business licence, unified social credit code, articles, cap table, beneficial ownership, bank details, registered and operating addresses, prior public awards and related-party list. Team: founder roles, full-time commitment, relevant education, eligibility evidence and lawful work status where required.

For international founders and overseas returnees, Shanghai publishes dedicated guidance for Foreigner's Work Permit (Category A/B) applications during the startup phase, Overseas Talent Residence Permits, and the 2026 Regulations Encouraging Overseas Returnees to Work and Start Businesses in Shanghai. Confirm host-park endorsement and immigration requirements separately from grant eligibility.

Technology: product note, demo, evaluation, IP ownership and licences, patent and software records, data rights, security controls and sector approvals where applicable. Commercial: pilot evidence, customer references, pricing, procurement path and unit economics. Finance: management accounts, annual audit where required, R&D ledger, contracts, invoices and payment evidence.

## Four different decisions

Incubation: fit inquiry, application pack, technical or commercial review, written service and space terms, admission and onboarding. Confirm workspace rent, service fee, compute price, access restrictions, IP and any investment rights before signing.

Public grant or reimbursement: current notice, eligibility check, platform account, legal-entity authorization, evidence submission, district or host review, expert review, award or contract, reporting, acceptance and payment. This sequence is a general guide; the linked notice governs the actual workflow.

Corporate pilot: business owner, problem definition, data and IP agreement, scoped pilot, procurement and legal review, acceptance, production decision. Investment: manager fit, deck, meeting, diligence, term sheet, investment committee, definitive agreements and closing. Neither begins with a guaranteed outcome.

## An accelerator’s four-week field program

Week 1: shortlist two districts, one research partner and two operators using sector fit and written eligibility. Week 2: meet the operator and a plausible buyer; inspect facilities. Week 3: define one pilot and a costed evidence plan. Week 4: submit the relevant application or investment pack and record the next decision date. This is an editorial planning model, not an official service promise.

We maintain an application ledger with owner, authority, policy version, evidence period, deadline in China Standard Time, submission receipt, duplicate-funding exclusions, reporting duty and next action. A calendar alert is useful only after the correct deadline and timezone have been confirmed.

Evidence S142. Guide for foreign talent and team members (Category A/B) applying for a Foreigner’s Work Permit during the startup phase_Latest.

Evidence S080. 上海市人民政府关于印发《鼓励留学人员来上海工作和创业的若干规定》的通知.

15

EVIDENCE & SOURCES

# How to read the evidence

A useful directory makes uncertainty inspectable. We link each source near its claim and maintain one shared research record for all seven language editions.

## Research and translation

We searched English and Simplified Chinese sources, prioritizing municipal and district authorities, official university pages and program operators. The Ministry of Education register supplies institutional scope. Sources are linked, not copied wholesale. Search discovery alone is weaker than a program's own current notice.

A source-access date records our research session, not a promise of continuous monitoring. Some official sites block automated access or retain old pages. Current validity, open intake, available capacity and a responsive contact are separate facts. We do not label an opportunity open without a dated supporting notice.

Chinese organization names are retained for searching and contact. Descriptive English names may be editorial translations. The Chinese edition translates the editorial text, interface and research records; third-party source pages retain their original language. A linked Chinese policy controls over our English summary.

## Contacts, workflows and map locations

Published telephone numbers are attributed to their sources, and general university switchboards are identified. Where a direct contact is unverified, we provide an official website or authority and suggest asking for the responsible team. We have not contacted organizations or submitted applications on readers' behalf. Email addresses are not published.

Application workflows are labelled as editorial checklists unless a record cites a notice-specific procedure. Campus and district anchors locate an ecosystem, not a verified entrance. Even street-based plotted points are approximate. The district boundaries are an illustrative DataV dataset, with no claim to survey, legal-boundary or navigation accuracy.

## Known gaps and responsible upkeep

Coverage is broad but not exhaustive. Many private incubators publish no current terms. Some district rules require a current annual notice that we could not establish as open. Several universities have no verified external startup program in this edition. Their institutional entry is included without inventing an accelerator or grant.

The registry includes 29 diploma colleges and 12 adult institutions without claiming program-level research for each. For university profiles, suggested thematic fit and office-routing questions are editorial guidance rather than a verified inventory of laboratories, contacts or available awards.

Before a new edition, recheck source dates, operator identity, policy expiry, intake deadlines, contacts, funding mechanism, eligibility, district boundaries and duplicate-funding rules. Preserve superseded claims with their historical status instead of silently reusing them. The source repository contains the data, translations, artwork provenance and reproducible Guidedog build commands.

Credits and publication system: Written by Vikrant Rathore, with contributions from Lauren Zhao, Vicky Ni, Jennifer Yuan, Ronak Rathore, Kanak Rathore and Emily Yue Xu. Built with Guidedog as a unified bilingual HTML website and Typst-typeset PDF book publication.

## Reuse and licensing
